

2027학년도 수능 대비 모의평가

1. 다음 글의 주제로 가장 적절한 것은?

Places today have become exhibitions of themselves. Through heavy investment in architecture, art, design, exhibition space, landscaping and various kinds of redevelopment towns, cities and countryside pronounce their possession of various cultural values — such as unchanging nature, the historic past, the dynamic future, multiculturalism, fun and pleasure, artistic creativity or simply stylishness. These cultural values have come to be seen as a place's identity, the possession of which is key to the important task of attracting visitors. And this identity is expected to be easily accessed by those visitors or, to use a currently favoured term in urban design, to be legible. Places whose identity seems inaccessible, confusing or contradictory do not present themselves as destinations. They do not, in other words, seem visitable. An identity that is not pointed to in the form of wellrestored or beautifully designed buildings, artworks, shopping plazas, streets, walkways or gardens does not compose itself into a view nor offer itself as an 'experience'. To avoid such a fate, places should 'make the most of themselves'. In this way, they can find their niche in the new cultural economy of visitability.

- ① importance of places showcasing a clear cultural identity
- ② need for preserving traditional lifestyles from urbanization
- ③ benefits of mixing foreign and local culture to attract tourists
- ④ impact of globalization in weakening the uniqueness of location
- ⑤ role of citizen participation in shaping urban identity and design

2. 다음 글의 제목으로 가장 적절한 것은?

Many companies have found that the easiest way to increase their productivity is to downsize; reduce the number of employees. This helps them to reduce their payrolls so that, if they can maintain their sales revenue, they have more profit at the end of the year. More effective organizations, however, realize that downsizing can be filled with problems, including loss of employee morale and failure of the remaining employees to keep up with work demands. Some enterprises are taking a different approach. They are developing methods to reduce the time needed to do the work. A good example is the NJ company in America. Just a few years ago, the firm found that its customer hotline was so congested that one-third of all callers hung up before getting through. This was when the company turned to a specialized software company to develop a package that would automate and monitor customer service calls. Now, when a person calls the hotline, the system not only logs in the individual's name but keeps track of the problem and how long it takes to resolve the situation. As a result, NJ is now able to identify those problems that occur most often and focus on ways of resolving them quickly. One of the keys to the success of NJ's fast working process is a well-trained workforce that knows how to follow the primary rule of total quality management: do things right the first time.

- ① What Frustrates Employees Most?
- ② Can Technology Replace Human Beings?
- ③ Why Not Take a Chance on a New Company?
- ④ Effective Ways to Motivate Employees to Work
- ⑤ High Productivity from Technology and Workforce

3. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?

A great change occurred with the arrival of the phonograph. Recorded music privatized and decontextualized ① what had often been a social event — and church music or sailors' songs could now be heard while dressing in the morning, while Beethoven was transformed into "wallpaper." At ② its simplest level music was heard, but performers were no longer seen. Sounds of all sorts could thus be integrated into everyday life as a kind of aural background — but more often to enhance a mood or ③ decorate some setting than as a focused object of attention. Claude Debussy in 1913 fretted that recorded music could be bought as ④ easy as "one can buy a glass of beer." And with no hint of irony, the first issue of Gramophone (1923) called for ⑤ listening to recorded music while shaving.

4. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은? (3점)

Students who have a high level of self-control are especially effective at achieving health, wealth, and happiness. Their lives are marked by success on many fronts. We found that these individuals don't attain these admirable outcomes in the (a) ① expected way — by actively exerting willpower. Their success is not due to some superhuman ability to inhibit unwanted actions. Instead, they form habits to automate their behavior. Habits make it easy to accomplish their goals. There's another important story of how people with high "self-control" are successful. It has to do with (b) ② contexts. In an online survey, individuals who scored high on a "self-control" scale also agreed with statements like "I choose friends who keep me on track to accomplishing my long-term goals," or "When I work or study, I deliberately seek out a place with no distractions," and "I (c) ③ avoid situations in which I might be tempted to act immorally." These people understood the power of circumstances to make actions easy or difficult. They recognized that if they controlled their surroundings, they'd control their actions, too. Once someone understands this, it gets easier to form beneficial habits. Students who tested (d) ④ low in "self-control" didn't agree as strongly with these statements. They weren't trying to make their lives easier by establishing the right (e) ⑤ internal forces — ones to drive desired behaviors and put friction on undesired ones. High "self-control" people don't just say the right thing. They do it.

5. 다음 글에서 전체 흐름과 관계 없는 문장은?

Natural selection, and in particular its genetic interpretation through the selfish gene, might seem incompatible with the idea of organisms helping each other out. However, in fact, the natural world is full of seemingly random acts of kindness. Inclusive fitness — where an organism places itself in danger to help members of its own family — is one such example. ① But there's another form of Darwinian charity that drives the behaviour of creatures, called reciprocal altruism. ② It occurs when organisms help others who are in need, in the hope that one day, when they themselves are in need, others will help them back. ③ This behavior is easily observed in ants that have extra stomachs to store reserve food to feed other members of the colony who are hungry. ④ Ants have developed the most amazing tricks to sniff out a food source and get more ants there as quickly as possible, before other competitors find it. ⑤ Any ant who fails to help a comrade, however, is starved by other members of the colony when it needs food itself.

6. 다음 글의 내용을 한 문장으로 요약하고자 한다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은?

Believe it or not, even in this computerized world there are still many situations where a sheet of paper and a pencil are the best tools for the music composer. Many important modern composers, especially those born before 1940, won't work with anything but paper and pencil. So, never think you are too advanced for these humble tools. Writing music with only paper and pencil has some amazing advantages to composing at a piano or other instrument. For one thing, many composers find the actual sound of the instrument itself interruptive to the composition process. Just imagine yourself deep in thought, hearing the perfect sequence of notes in your head, when suddenly, your finger touches the actual piano key, and it doesn't sound exactly like you imagined. Real sound is harsh, and hearing even the first note of your imagined phrase before you've written it down can cause you to lose an entire piece of music.

Writing music with conventional tools like paper and a pencil is more ____ (A) ____ than with a musical instrument, because real sound can be ____ (B) ____ to the composition process.

정답 및 해설

1. [정답] ①

[해설]

글은 장소가 방문객을 유치하기 위해 명확하고(*legible*), 쉽게 접근 가능한(*easily accessed*) 문화적 정체성을 보여주는 것이 중요하다고 반복적으로 강조한다. 이를 통해 '방문 가능성(*visitability*)'이라는 새로운 문화 경제에서 살아남을 수 있다고 설명한다.

2. [정답] ⑤

[해설]

이 글은 생산성 향상을 위해 인력 감축(*downsizing*) 대신, 기술(*소프트웨어*) 도입과 잘 훈련된 인력(*well-trained workforce*)을 통해 업무 효율성을 높이는 더 효과적인 방법을 제시하고 있다. NJ 회사의 사례는 이를 뒷받침한다. 따라서 '기술과 노동력으로부터의 높은 생산성'이라는 제목이 글의 핵심 내용을 가장 잘 포괄한다.

3. [정답] ④

[해설]

④번의 'as ~ as' 원급 비교 구문에서, 비교 대상은 'could be bought'라는 동사구의 방식이다. 동사를 수식하기 위해서는 형용사 'easy'가 아닌 부사 'easily'가 와야 한다. 따라서 'as easy as'를 'as easily as'로 고쳐야 어법에 맞다.

4. [정답] ⑤

[해설]

글의 핵심은 자기 통제력이 높은 사람들이 의지력과 같은 '내부적(*internal*)' 힘에 의존하는 것이 아니라, 친구 선택, 장소 선택, 상황 회피 등 '외부적(*external*)' 환경을 통제한다는 것입니다. (e)가 포함된 문장은 자기 통제력이 낮은 사람들은 바람직한 행동을 유도하는 올바른 힘을 설정하여 삶을 더 쉽게 만들려고 노력하지 않는다는 내용입니다. 글의 맥락상 여기서 말하는 '힘'은 환경적, 즉 '외부적(*external*)' 힘을 의미하므로 'internal(내부적인)'은 문맥상 적절하지 않습니다.

5. [정답] ④

[해설]

이 글은 자연계에 존재하는 이타주의, 특히 포괄 적합성(*inclusive fitness*)과 상호 이타주의(*reciprocal altruism*)에 대해 설명하고 있습니다. 개미가 동료를 돕는 행동을 예시로 들고 있는데, ④번 문장은 개미가 경쟁자보다 먼저 먹이를 찾는 효율적인 방법에 대해 설명하고 있어 '이타주의'라는 전체적인 주제에서 벗어납니다.

6. [정답] ④

[해설]

본문은 종이와 연필 같은 전통적인 도구로 작곡하는 것이 피아노 같은 악기를 사용하는 것보다 장점이 있다고 설명한다. 그 이유로 실제 악기 소리는 작곡가가 머릿속에서 구상하는 완벽한 음의 순서를 방해(interruptive)할 수 있기 때문이라고 말한다. 따라서 요약문은 종이와 연필을 사용하는 것이 더 (A)유용하며(useful), 실제 소리는 작곡 과정에 (B)방해가 될(disruptive) 수 있다는 내용이 되어야 한다.
