1. 다음 글의 주제로 가장 적절한 것은?

Radical developments in technology have revolutionized the way in which artists and entertainers tell their stories. From live-streamed transmissions from London's Royal Opera House and the New York Met to the innovative use of sound, film and projection in plays such as the National Theater's *The Waves*, technology is constantly opening up staged entertainment to new formats and audiences. The British producing company Artichoke are masters of harnessing technology to tell a story: In May 2006 they brought French company Royal de Luxe's *The Sultan's Elephant* to the streets of London, fascinating audiences young and old with a 42-ton mechanical elephant and a 6-meter-tall princess, who traveled on a London bus and disappeared in a rocket.

*harness: 이용하다

- ① influence of technology on artistic expression
- ② growing commercialism in various performing arts
- ③ reasons some performances are popular for a long time
- ④ utilizing artistic formats in promoting goods and services
- ⑤ the process of making characters familiar to audiences

In organizations, there is no simple cause-and-effect relationship between introducing a management technique and getting an improved business result. This contrasts with other spheres of activity where simple causal relationships do seem to operate. Hit the nail with the hammer, and it goes into the wood. Show a dog food, and it salivates. This kind of simple cause-and-effect logic can be misleading if applied to the complex world of organizations, where it is difficult to trace single effects to single causes. Uncontrollable outside factors can sink a wonderfully designed team (a hurricane just swept the entire inventory out to sea) or rescue one whose design was so bad that failure seemed assured (the firm that was competing for the contract just went belly-up). In organizations, multiple causes are operating at the same time and interacting with each other over an extended period of time.

- ① A Single Cause Can Have Multiple Effects.
- ② The Ends Outweigh the Means in Business.
- ③ Causality in Business Is Not Always Linear.
- ④ Making Uncontrollable Factors Controllable.
- ⑤ Good Business Plans Consider Outside Factors.

3. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?

We usually get along best with people who we think are like us. In fact, we seek them out. It's why places like Little Italy, Chinatown, and Koreatown ①exist. But I'm not just talking about race, skin color, or religion. I'm talking about people who share our values and look at the world the same way we ②do. As the saying goes, birds of a feather flock together. This is a very common human tendency ③what is rooted in how our species developed. Imagine you are walking out in a forest. You would be conditioned to avoid something unfamiliar or foreign because there is a high likelihood that ④it would be interested in killing you. Similarities make us ⑤relate better to other people because we think they'll understand us on a deeper level than other people.

4. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?

Many shops play a radio station in the background, complete with ads, news, weather, and so on. Not only can this be distracting, but the ads may include some for your store's ①competition — not exactly what you want customers to hear. Noncommercial radio is a good ②alternative during the times of day when the programming is all music. This service provides a variety of music all day long, with few if any repetitions, but, of course, you and your staff have ③full control over the individual selections. Playing music in the store brings up the thorny issue of paying for the ④rights to use the recordings commercially. Technically a store playing the radio is also ⑤required to pay a licensing fee for the music, so you have to check that before you turn on the radio.

5. 다음 글에서 전체 흐름과 관계 없는 문장은?

Cultural storage and transmission require humans to accomplish the work of storing knowledge and passing it on to the next generation by means other than DNA. To that end, humans developed techniques of memorization, of transmitting knowledge through education and by using external memory devices. ①The Chauvet cave was such a device, a place that humans returned to generation after generation, cooperating on a project that none of them could have accomplished alone. ②Each generation of artists learned techniques and continued the work of previous ones, preserving and improving what their predecessors had worked on. ③Despite advances in technology, there is a limit in restoring damaged cave paintings, leaving us puzzled about what those paintings really were. ④For us, the idea that humans might work on a single system of caves for thousands of years in the same style is almost unimaginable. ⑤But these early humans were highly conscious of the importance of storing and preserving knowledge and of passing down ideas.

Earlier navigational aids, particularly those available and affordable to ordinary folks, were just that: aids. They were designed to give travelers a greater awareness of the world around them — to sharpen their sense of direction, provide them with advance warning of danger, highlight nearby landmarks and other points of orientation, and in general help them situate themselves in both familiar and alien settings. Satellite navigation systems can do all those things, and more, but they're not designed to deepen our involvement with our surroundings. They're designed to relieve us of the need for such involvement. By taking control of the mechanics of navigation and reducing our own role to following routine commands, the systems, whether running through a dashboard, a smartphone, or a dedicated GPS receiver, end up isolating us from the environment. As a team of Cornell University researchers put it in a 2008 paper, "With the GPS you no longer need to know where you are and where your destination is, attend to physical landmarks along the way, or get assistance from other people in the car and outside of it."

↓

Compared to earlier navigational aids that enabled users to be more (A) with their surroundings, satellite navigation systems (B) us from the environment by limiting our part to simply following directions.

첫 문장에서 '기술의 급진적인 발전이 예술가와 엔터테이너가 이야기를 전달하는 방식을 혁신했다'고 주제를 명확히 제시한다. 이후 오페라하우스의 생중계, 연극에서의 음향/영상 기술 사용, 거대한 기계 코끼리 공연 등을 구체적인 예시로 들어 기술이 예술적 표현에 미치는 영향을 설명하고 있다.

2. [정답] ③

지문은 조직(비즈니스)의 세계에서는 단순한 인과관계가 성립하지 않으며, 통제 불가능한 외부 요인과 다수의 원인이 복합적으로 작용하여 결과를 예측하기 어렵다는 점을 설명한다. 따라서 비즈니스에서의 인과관계가 항상 선형적(단순)이지 않다는 제목이 가장 적절하다.

3. [정답] ③

③번의 'what'은 선행사를 포함하는 관계대명사로, 앞에 명사(선행사)가 올 수 없다. 하지만 이 문장에서는 'a very common human tendency'라는 선행사가 존재한다. 따라서 선행사를 수식하며 뒤에 주어 가 없는 불완전한 절을 이끄는 주격 관계대명사 'that'이나 'which'로 고쳐야 한다. 'a very common human tendency that is rooted in...'

4. [정답] ③

이 글은 상점에서 배경 음악으로 라디오를 트는 것에 대해 이야기하고 있다. 비상업적 라디오 방송은 광고가 없어서 좋은 대안이 될 수 있지만, 라디오 방송의 특성상 개별 곡 선택에 대한 통제권은 가질 수 없다. 따라서 직원들이 개별 선곡에 대해 '완전한(full)' 통제권을 가진다는 ③은 문맥상 어색하며, '통제권이 거의 없다(little control)'와 같은 표현이 적절하다.

5. [정답] ③

[해설]

이 글의 전체적인 흐름은 DNA 이외의 수단(외부 기억 장치)을 통해 지식을 저장하고 다음 세대로 전달하는 인류의 문화적 저장 및 전송 방식에 관한 것이다. 쇼베 동굴을 세대에 걸친 협력과 지식 전수의 예로 들고 있다. 하지만 ③번 문장은 현대 기술을 이용한 '손상된 동굴 벽화의 복원 한계'에 대해 이야기하고 있어, 고대 인류의 지식 저장 및 전수라는 글의 핵심 주제에서 벗어난다.

6. [정답] ①

이 글은 과거의 항법 보조 장치가 사용자의 '주변 세상에 대한 인식(awareness)'과 '몰입(involverment)'을 높여주었던 반면, 위성 항법 시스템(GPS)은 우리를 그러한 몰입의 필요성에서 벗어나게 하여 결국 '환경으로부터 우리를 고립시킨다(isolating us from the environment)'고 대조한다. 따라서 요약문은 '과거의 장치는 사용자가 주변 환경과 더 (A)연결되도록(connected) 했지만, 위성 항법 시스템은 우리를 환경으로부터 (B)분리시킨다(detach)'는 내용이 되어야 한다.
