

2027학년도 수능 대비 모의평가

1. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?

Philosophy may frequently state unequivocally, This is wrong. This is not the way to live. But it ① does so without banishing people from the room, condemning wrong beliefs and bad actions, but treating people, always, with attention and respect. I believe that it is not too bold to link the philosophical approach with the methodology of nonviolent political change, as ② exemplified in the life and work of Martin Luther King Jr. Some approaches to political change ③ are violent, angry, and contemptuous of the opponent. King insisted on an attitude to others ④ whom he called Love, even when what he was doing was to make an extremely vigorous protest against unjust conditions. The Love he demanded was a combination of respect for humanity with good will and hope: we treat people as people who will listen and think, and who ultimately may join with us in building something ⑤ beautiful. Philosophy shares that project and that hope.

2. (A), (B), (C)의 각 네모 안에서 어법에 맞는 표현으로 가장 적절한 것은?

If we create a routine, we don't have to expend precious energy every day prioritizing everything. We must simply expend a small amount of initial energy to create the routine, and then all that is left to do is follow it. There is a huge body of scientific research to explain the mechanism (A) which / by which routine enables difficult things to become easy. One simplified explanation is that as we repeatedly do a certain task the neurons, or nerve cells, (B) make / making new connections through communication gateways called 'synapses.' With repetition, the connections strengthen and it becomes easier for the brain to activate them. For example, when you learn a new word it takes several repetitions at various intervals for the word to be mastered. To recall the word later you will need to activate the same synapses until eventually you know the word without consciously thinking about (C) it / them.

- ① which make them
- ② which making them
- ③ by which make them
- ④ by which making it
- ⑤ by which make it

3. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?

In Philadelphia, planners have been experimenting with a new way of slowing drivers down: painted 3D triangles ① that look like speed bumps. At one quarter of the cost of physical bumps, the devices also have the advantage of not tearing up emergency vehicle axles as they speed over ② them. A month of investigation on a halfmile stretch of road found that driver speeds ③ fell from an average of 38 miles per hour to 23 miles per hour. While this drop is impressive, the effect may be temporary as drivers, particularly those who regularly travel that route, ④ to learn which bumps are just illusions. Still, ⑤ slowing down the tourists might provide enough benefit to be worth the cost.

* axle: 차축

정답 및 해설

1. [정답] ④

[해설]

④번은 5형식 동사 call(A를 B라고 부르다)의 목적어(A)가 선행사(an attitude to others)로 나간 목적격 관계대명사 자리이다. 선행사가 사람이 아니므로 whom을 쓸 수 없고, which나 that을 써야 한다.

① does so는 앞서 나온 동사구 state unequivocally를 대신하는 표현이다. ② exemplified는 the methodology를 수식하는 과거분사이다. ③ are는 복수 주어 Some approaches에 대한 복수 동사이다.

⑤ beautiful은 -thing으로 끝나는 명사를 뒤에서 수식하는 형용사이다.

2. [정답] ⑤

[해설]

(A) 뒤에 'routine enables difficult things to become easy'라는 완전한 문장이 이어집니다. '그 메커니즘에 의해'라는 의미이므로 'by which'가 적절합니다. (B) 접속사 that이 생략된 명사절 'that the neurons... make new connections'에서 주어는 the neurons, or nerve cells이므로 복수 동사 make가 와야 합니다. (C) 앞서 언급된 단수 명사 a new word를 가리키므로 대명사 it이 맞습니다.

3. [정답] ④

[해설]

④번이 포함된 부분은 접속사 'as'가 이끄는 부사절입니다. 이 절의 주어는 'drivers'이고, 그 뒤에는 동사가 와야 합니다. to learn은 준동사이므로 동사 역할을 할 수 없습니다. 따라서 정동사인 'learn'으로 고쳐야 합니다.
