Darwin himself could scarcely have found a better example of the operation of natural selection than is provided by the way the mechanism of resistance operates. Out of an original population, the members of ① which vary greatly in qualities of structure, behavior, or physiology, it is the "tough" insects that survive chemical attack. Spraying kills off the weaklings. The only survivors are insects that have some inherent quality that allows ② them to escape harm. These are the parents of the new generation, which, by simple inheritance, possesses all the qualities of "toughness" ③ inherent in its forebears. Inevitably it follows that intensive spraying with powerful chemicals only ④ make worse the problem it is designed to solve. After a few generations, instead of a mixed population of strong and weak insects, there results a population ⑤ consisting entirely of tough, resistant strains.

2. (A), (B), (C)의 각 네모 안에서 어법에 맞는 표현으로 가장 적절한 것은?

The old maxim "I'll sleep when I'm dead" is unfortunate. (A) Adopt / Adopting this mindset, and you will be dead sooner and the quality of that life will be worse. The elastic band of sleep deprivation can stretch only so far before it snaps. Sadly, human beings are in fact the only species that will deliberately deprive (B) them / themselves of sleep without legitimate gain. Every component of wellness, and countless seams of societal fabric, are being eroded by our costly state of sleep neglect: human and financial alike. So much so that the World Health Organization (WHO) has now declared a sleep loss epidemic throughout industrialized nations. It is no coincidence that countries (C) where / which sleep time has declined most dramatically over the past century, such as the US, the UK, Japan, and South Korea, and several in Western Europe, are also those suffering the greatest increase in rates of physical diseases and mental disorders.

- ① Adopt them where
- ② Adopt themselves where
- ③ Adopt themselves which

There is a reason why so many of us are attracted to recorded music these days, especially considering personal music players are common and people are listening to music through headphones a lot. Recording engineers and musicians have learned to create special effects that tickle our brains by exploiting neural circuits that evolved ① to discern important features of our auditory environment. These special effects are similar in principle to 3-D art, motion pictures, or visual illusions, none of ② which have been around long enough for our brains to have evolved special mechanisms to perceive them. Rather, 3-D art, motion pictures, and visual illusions leverage perceptual systems that ③ are in place to accomplish other things. Because they use these neural circuits in novel ways, we find them especially ④ interested. The same is true of the way ⑤ that modern recordings are made.

정답 및 해설

1. [정답] ④

[해설]

④번은 동명사 주어(intensive spraying with powerful chemicals)에 대한 동사이므로 단수형인 makes가 되어야 한다. make worse the problem은 'make the problem worse'에서 목적어가 길어 뒤로 도치된 형태이다. ① 'the members of which'는 'an original population'을 선행사로 하는 소유격 관계대명사 구문으로 올바르다. ② them은 insects를 가리키는 대명사이다. ③ inherent는 the qualities를 후치 수식하는 형용사이다. ⑤ consisting은 a population을 수식하는 현재분사이다.

2. [정답] ②

[해설]

(A) '명령문, and ...' 구문은 '~해라, 그러면 ...할 것이다'라는 의미를 나타낸다. 따라서 동사원형 Adopt가 와야 한다. (B) deprive 동사의 주체는 human beings이며, 수면을 박탈하는 대상 역시 자기 자신이므로 주어와 목적어가 동일하다. 따라서 재귀대명사 themselves를 사용해야 한다. (C) 뒤따르는 절 'sleep time has declined...'가 완전한 문장이므로 관계부사 where가 선행사 countries를 수식해야 한다. 관계대명사 which는 뒤에 불완전한 절이 와야 한다.

3. [정답] ④

[해설]

④번은 5형식 동사 'find + 목적어(them) + 목적격보어' 구문입니다. 여기서 목적어 'them'은 'these neural circuits'를 가리키며, 이것들이 우리를 '흥미롭게 만드는' 것이므로 목적격 보어 자리에는 능동의 의미를 가진 현재분사 'interesting'이 와야 합니다. interested는 감정을 느끼는 주체에 사용됩니다.
