

2027학년도 수능 대비 모의평가

1. 밑줄 친 부분이 다음 글에서 의미하는 바로 가장 적절한 것은? (3점)

Scientists have no special purchase on moral or ethical decisions; a climate scientist is no more qualified to comment on health care reform than a physicist is to judge the causes of bee colony collapse. The very features that create expertise in a specialized domain lead to ignorance in many others. In some cases lay people — farmers, fishermen, patients, native peoples — may have relevant experiences that scientists can learn from. Indeed, in recent years, scientists have begun to recognize this: the Arctic Climate Impact Assessment includes observations gathered from local native groups. So our trust needs to be limited, and focused. It needs to be very particular. Blind trust will get us into at least as much trouble as no trust at all. But without some degree of trust in our designated experts — the men and women who have devoted their lives to sorting out tough questions about the natural world we live in — we are paralyzed, in effect not knowing whether to make ready for the morning commute or not.

- ① questionable facts that have been popularized by non-experts
- ② readily applicable information offered by specialized experts
- ③ common knowledge that hardly influences crucial decisions
- ④ practical information produced by both specialists and lay people
- ⑤ biased knowledge that is widespread in the local community

2. 다음 글의 제목으로 가장 적절한 것은?

Mending and restoring objects often require even more creativity than original production. The preindustrial blacksmith made things to order for people in his immediate community; customizing the product, modifying or transforming it according to the user, was routine. Customers would bring things back if something went wrong; repair was thus an extension of fabrication. With industrialization and eventually with mass production, making things became the province of machine tenders with limited knowledge. But repair continued to require a larger grasp of design and materials, an understanding of the whole and a comprehension of the designer's intentions. "Manufacturers all work by machinery or by vast subdivision of labour and not, so to speak, by hand," an 1896 Manual of Mending and Repairing explained. "But all repairing must be done by hand. We can make every detail of a watch or of a gun by machinery, but the machine cannot mend it when broken, much less a clock or a pistol!"

- ① Still Left to the Modern Blacksmith: The Art of Repair
- ② A Historical Survey of How Repairing Skills Evolved
- ③ How to Be a Creative Repairperson: Tips and Ideas
- ④ A Process of Repair: Create, Modify, Transform!
- ⑤ Can Industrialization Mend Our Broken Past?

3. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?

When we are in a bad mood or our emotions have been aroused for other reasons, we more readily attribute dubious motives to another person. People also have certain things that tend to set ① them off. When a person acts in one of these ways that push our hot buttons, it can stimulate negative attributions that stir emotions and may lead to relationship conflict. This is particularly true when we are dealing with people ② whom we have had a history of conflict. In these situations, when the other person acts in a certain way, we are much more likely to attribute bad motives to him or her and ③ get angry as a result. Finally, bad behaviors on the part of other people, such as the use of harsh language, personal attacks, and intimidation, can lead to negative attributions and the emotions ④ that stem from them. These behaviors are ⑤ threatening to most people and quickly evoke fight-or-flight responses that contribute to relationship conflict.

4. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?

Internalization depends on supports for autonomy. Contexts that use controlling strategies such as salient rewards and punishments or evaluative, self-esteem-hooking pressures are ①least likely to lead people to value activities as their own. This is not to say that controls don't ②work to produce behavior — decades of operant psychology prove that they can. It is rather that the more salient the external control over a person's behavior, the more the person is likely to be merely externally regulated or introjected in his or her actions. Consequently, the person does not ③develop a value or investment in the behaviors, but instead remains dependent on external controls. Thus, parents who reward, force, or cajole their child to do homework are more likely to have a child who does so only when rewarded, cajoled, or forced. The salience of external controls ④drives the acquisition of self-responsibility. Alternatively, parents who supply reasons, show an emotional understanding of difficulties overcoming problems, and use a ⑤minimum of external incentives are more likely to cultivate a sense of willingness and value for work in their child.

5. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오.

The basic guidelines for good style are not mysterious; in fact, you use them every day in conversation. In conversation and in writing, we all rely heavily on cooperation to make sense of exchanges, and a polished practical style makes cooperation easier. Writers develop such a style by acknowledging that readers expect the same things that listeners expect in conversation: clarity, relevance, and proportion. If you listen to someone who is not clear, who cannot stay on the topic, or who offers too much or too little information, you will quickly lose interest in the conversation. Writers, too, need to be clear, stay on the topic, and give information appropriately. In fact, this attention to audience and appropriateness may be even more important in writing than in conversation because writing does not permit the nonverbal communication and immediate feedback that are part of conversation. As writers, we have to ____; in effect, we have to imagine both halves of a virtual conversation.

- ① recognize the limitations of writing and conversation
- ② envision the reader's preference for stylistic writing
- ③ picture the reader's desire for more knowledge
- ④ develop collaborative writing with readers
- ⑤ anticipate the absent reader's response

6. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오. (3점)

Fans feel for feeling's own sake. They make meanings beyond what seems to be on offer. They build identities and experiences, and make artistic creations of their own to share with others. A person can be an individual fan, feeling an "idealized connection with a star, strong feelings of memory and nostalgia," and engaging in activities like "collecting to develop a sense of self." But, more often, individual experiences are embedded in social contexts where other people with shared attachments socialize around the object of their affections. Much of the pleasure of fandom _____. In their diaries, Bostonians of the 1800s described being part of the crowds at concerts as part of the pleasure of attendance. A compelling argument can be made that what fans love is less the object of their fandom than the attachments to (and differentiations from) one another that those affections afford.

- ① is enhanced by collaborations between global stars
- ② results from frequent personal contact with a star
- ③ deepens as fans age together with their idols
- ④ comes from being connected to other fans
- ⑤ is heightened by stars' media appearances

정답 및 해설

1. [정답] ②

[해설]

필자는 전문가의 의견을 맹신해서는 안 되지만, 그들의 전문성을 어느 정도 신뢰하지 않으면 우리는 마비되어(paralyzed) 아무것도 결정하지 못하는 상태가 된다고 말한다. 밑줄 친 '아침 통근 준비를 해야 할지 말아야 할지 모르는 것'은 전문가의 조언(예: 기상학자의 일기 예보) 없이는 가장 기본적인 일상적 결정조차 내릴 수 없게 되는 상황을 비유적으로 표현한 것이다. 이는 '전문가가 제공하는 바로 적용 가능한 정보(readily applicable information offered by specialized experts)'의 부재 상태를 의미한다.

2. [정답] ①

[해설]

이 글은 산업화 이전의 수선(mending and restoring)과 산업화 이후의 수선을 대조한다. 산업화 이전 대장장이에게 수선은 제작의 연장이었지만, 대량 생산 시대에는 제작은 기계가 담당하게 되고 수선은 '디자인과 재료에 대한 더 큰 이해, 전체에 대한 이해, 설계자 의도에 대한 이해'를 요구하는 고도의 기술로 남게 되었다. 마지막 문장에서 기계는 시계를 만들 수는 있어도 고장 났을 때 고칠 수는 없다고 강조하며, 수선 기술의 독자적인 가치와 예술성을 부각한다. 따라서 '현대 대장장이에게 여전히 남겨진 것: 수선의 예술'이라는 제목이 가장 적절하다.

3. [정답] ②

[해설]

②번은 '우리가 갈등의 역사를 가져온 사람들'이라는 의미가 되어야 한다. 관계사절 'we have had a history of conflict' 뒤에 전치사 with가 생략되어 있다. 즉, have had a history of conflict with people 이므로, 관계대명사는 전치사 with의 목적어 역할을 해야 한다. 따라서 with whom이 되거나, whom을 생략하고 문장 끝에 with를 남겨야 한다. whom만 단독으로 쓸 수는 없다. ① them은 people을 가리키는 대명사이다. ③ get은 are more likely to attribute와 병렬로 연결된 동사원형이다. ④ that은 the emotions를 선행사로 하는 주격 관계대명사이다. ⑤ threatening은 '위협적인'이라는 의미의 현재분사 형용사이다.

4. [정답] ④

[해설]

글의 전체적인 내용은 외적 통제(external controls)가 강할수록 행동의 내재화나 자율성이 저해된다는 것이다. 따라서 외적 통제의 두드러짐(The salience of external controls)이 자기 책임감의 획득을 '촉진한다(drives)'는 ④번은 문맥에 맞지 않다. 오히려 '방해한다(hinders)' 또는 '막는다(prevents)'와 같은 반대 의미의 단어가 와야 한다.

5. [정답] ⑤

[해설]

글쓰기는 대화와 달리 비언어적 소통과 즉각적인 피드백이 불가능하므로 독자에 대한 고려가 더 중요하다고 말한다. 따라서 작가는 독자가 그 자리에 없기 때문에, 독자가 어떻게 반응할지를 미리 예측하고 상상해야 한다. 이는 '자리에 없는 독자의 반응을 예상해야 한다(anticipate the absent reader's response)'는 말과 같다. 바로 뒤에 이어지는 '가상 대화의 양쪽 절반을 상상해야 한다'는 표현이 이를 뒷받침한다.

6. [정답] ④

[해설]

팬덤의 즐거움이 개인적인 경험을 넘어 'social contexts(사회적 맥락)' 속에 있으며, 같은 애정을 공유하는 다른 사람들과 교류하는 데서 온다고 설명한다. 1800년대 보스턴 사람들의 일기 예시를 통해 콘서트의 즐거움 중 일부가 'being part of the crowds(군중의 일부가 되는 것)'였음을 보여준다. 결론적으로 팬들이 사랑하는 것은 팬덤의 대상 자체보다 'the attachments to... one another(서로에 대한 애착)'라고 말한다. 따라서 팬덤의 즐거움은 '다른 팬들과 연결되는 데서 온다'는 내용이 빈칸에 가장 적절하다.
