The first underwater photographs were taken by an Englishman named William Thompson. In 1856, he waterproofed a simple box camera, attached it to a pole, and (A) lowered / lowering it beneath the waves off the coast of southern England. During the 10 minute exposure, the camera slowly flooded with seawater, but the picture survived. Underwater photography was born. Near the surface, (B) where / which the water is clear and there is enough light, it is quite possible for an amateur photographer to take great shots with an inexpensive underwater camera. At greater depths — it is dark and cold there — photography is the principal way of exploring a mysterious deep sea world, 95 percent of which has never (C) seen / been seen before.

The city of Pompeii is a ① partially buried Roman town-city near modern Naples. Pompeii was destroyed and buried ② during a long eruption of the volcano Mount Vesuvius in 79 AD. The eruption buried Pompeii under 4 to 6 meters of ash and stone, and it ③ lost for over 1,500 years before its accidental rediscovery in 1599. Since then, its rediscovery ④ has provided a detailed insight into the life at the height of the Roman Empire. Today, this UNESCO World Heritage Site is one of Italy's most popular tourist attractions, with about 2,500,000 people ⑤ visiting every year.

Back in the 1800s, Henry David Thoreau wrote that the man who ① desperately keeps checking for letters from others "has not heard his inner voice in a long while." The author William Powers argues that the same can be true these days for those who ② are continuously checking e-mail, Facebook, Twitter, etc. They keep wondering ③ if there are any comments on their comments, and who has read their latest post. Powers praises the benefits of solitude, warns not to depend on others' views, and ④ giving lessons on how to maintain balance. He tells us that his own family follows an Internet Sabbath on weekends. They found it scary at first but now welcome it as a break from always ⑤ being connected.
