

2027학년도 수능 대비 모의평가

1. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오.

The early grain trade firms were active in both surplus-producing and food deficit regions, and these firms made it their business to know the state of supply and demand in both. Because this information was the key to their _____, these firms worked in relative secrecy, frequently built on family ties, trust, and loyalty. In addition, these firms were able to benefit from the rise of commodity exchanges and commodities futures markets that emerged in the mid-1800s. Agricultural markets are naturally unstable, due to changes in harvest size that result from variable weather patterns and other factors. Locking-in prices by buying and selling grain for future delivery helped these firms to minimize such risks. It made sense for the grain trading companies to manage their risks within a single firm that was operating in more than one country, rather than operating as independent national companies trading with each other. Their access to information in multiple markets enabled them to easily cover the risks associated with agricultural commodity trade.

- ① profitability
- ② unification
- ③ innovation
- ④ reputation
- ⑤ morality

2. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오.

When examining the archaeological record of human culture, one has to consider that it is vastly _____. Many aspects of human culture have what archaeologists describe as low archaeological visibility, meaning they are difficult to identify archaeologically. Archaeologists tend to focus on tangible (or material) aspects of culture: things that can be handled and photographed, such as tools, food, and structures. Reconstructing intangible aspects of culture is more difficult, requiring that one draw more inferences from the tangible. It is relatively easy, for example, for archaeologists to identify and draw inferences about technology and diet from stone tools and food remains. Using the same kinds of physical remains to draw inferences about social systems and what people were thinking about is more difficult. Archaeologists do it, but there are necessarily more inferences involved in getting from physical remains recognized as trash to making interpretations about belief systems.

*archaeological: 고고학의

- ① outdated
- ② factual
- ③ incomplete
- ④ organized
- ⑤ detailed

3. 주어진 글 다음에 이어질 글의 순서로 가장 적절한 것은?

The fossil record provides evidence of evolution. The story the fossils tell is one of change. Creatures existed in the past that are no longer with us. Sequential changes are found in many fossils showing the change of certain features over time from a common ancestor, as in the case of the horse.

- (A) If multicelled organisms were indeed found to have evolved before single-celled organisms, then the theory of evolution would be rejected. A good scientific theory always allows for the possibility of rejection. The fact that we have not found such a case in countless examinations of the fossil record strengthens the case for evolutionary theory.
- (B) The fossil record supports this prediction — multicelled organisms are found in layers of earth millions of years after the first appearance of single-celled organisms. Note that the possibility always remains that the opposite could be found.
- (C) Apart from demonstrating that evolution did occur, the fossil record also provides tests of the predictions made from evolutionary theory. For example, the theory predicts that single-celled organisms evolved before multicelled organisms.

4. 주어진 글 다음에 이어질 글의 순서로 가장 적절한 것은? (3점)

In spite of the likeness between the fictional and real world, the fictional world deviates from the real one in one important respect.

- (A) The author has selected the content according to his own worldview and his own conception of relevance, in an attempt to be neutral and objective or convey a subjective view on the world. Whatever the motives, the author's subjective conception of the world stands between the reader and the original, untouched world on which the story is based.
- (B) Because of the inner qualities with which the individual is endowed through heritage and environment, the mind functions as a filter; every outside impression that passes through it is filtered and interpreted. However, the world the reader encounters in literature is already processed and filtered by another consciousness.
- (C) The existing world faced by the individual is in principle an infinite chaos of events and details before it is organized by a human mind. This chaos only gets processed and modified when perceived by a human mind.

5. 글의 흐름으로 보아, 주어진 문장이 들어가기에 가장 적절한 곳을 고르시오. (3점)

Retraining current employees for new positions within the company will also greatly reduce their fear of being laid off.

Introduction of robots into factories, while employment of human workers is being reduced, creates worry and fear. (①) It is the responsibility of management to prevent or, at least, to ease these fears. (②) For example, robots could be introduced only in new plants rather than replacing humans in existing assembly lines. (③) Workers should be included in the planning for new factories or the introduction of robots into existing plants, so they can participate in the process. (④) It may be that robots are needed to reduce manufacturing costs so that the company remains competitive, but planning for such cost reductions should be done jointly by labor and management. (⑤) Since robots are particularly good at highly repetitive simple motions, the replaced human workers should be moved to positions where judgment and decisions beyond the abilities of robots are required.

6. 글의 흐름으로 보아, 주어진 문장이 들어가기에 가장 적절한 곳을 고르시오. (3점)

The difference is that the action in the game world can only be explored through the virtual bodily space of the avatar.

A video game has its own model of reality, internal to itself and separate from the player's external reality, the player's bodily space and the avatar's bodily space. (①) The avatar's bodily space, the potential actions of the avatar in the game world, is the only way in which the reality of the external reality of the game world can be perceived. (②) As in the real world, perception requires action. (③) Players extend their perceptual field into the game, encompassing the available actions of the avatar. (④) The feedback loop of perception and action that enables you to navigate the world around you is now one step removed: instead of perceiving primarily through interaction of your own body with the external world, you're perceiving the game world through interaction of the avatar. (⑤) The entire perceptual system has been extended into the game world.

정답 및 해설

1. [정답] ①

[해설]

초기 곡물 무역 회사들은 공급과 수요에 대한 정보를 아는 것을 사업으로 삼았다. 이 정보가 왜 중요했는지를 추론하는 문제이다. 정보를 통해 위험을 최소화하고(minimize such risks), 여러 시장에 접근하여 이익을 얻는 사업 구조를 설명하고 있으므로, 이 정보는 회사의 '수익성(profitability)'의 핵심이었음을 알 수 있다.

2. [정답] ③

[해설]

지문은 고고학적 기록이 인간 문화의 많은 측면을 파악하기 어렵다('low archaeological visibility', 'difficult to identify')고 설명한다. 특히 도구와 같은 물질적(tangible) 측면에 비해 사회 시스템이나 신념 체계 같은 비물질적(intangible) 측면을 재구성하는 것은 훨씬 더 어렵다고 강조한다. 이는 고고학적 기록이 모든 문화적 측면을 담고 있지 못하며, 본질적으로 불완전하다(incomplete)는 것을 의미한다.

3. [정답] ⑤

[해설]

주어진 글은 화석 기록이 진화의 증거라고 말한다. (C)에서 화석 기록이 진화론의 '예측'을 시험한다고 하며 '단세포 생물이 다세포 생물보다 먼저 진화했다'는 예측을 예로 든다. (B)에서 'this prediction'으로 (C)의 예측을 받아, 화석 기록이 그 예측을 뒷받침한다고 설명한다. 또한 (B)의 끝부분에서 반대의 경우가 발견될 가능성을 언급한다. (A)에서 'If multicelled organisms were indeed found to have evolved before single-celled organisms'라고 가정하며 (B) 끝에서 언급된 '반대의 경우'를 구체적으로 설명하고, 이것이 진화론이 반증 가능한 과학 이론임을 보여준다고 마무리한다. 따라서 (C)-(B)-(A) 순서가 가장 자연스럽다.

4. [정답] ⑤

[해설]

주어진 글은 허구의 세계가 현실과 중요한 한 가지 면에서 다르다고 말한다. (C)는 먼저 개인이 마주하는 '현실 세계'가 인간의 정신에 의해 조직되기 전에는 무한한 혼돈(infinite chaos) 상태라고 정의한다. (B)는 이어서 '그러나(However)' 독자가 문학에서 만나는 세계는 이미 '다른 의식(another consciousness)'에 의해 처리되고 여과된(processed and filtered) 세계라고 대조하며 설명한다. (A)는 (B)에서 언급된 '다른 의식'이 바로 '작가(The author)'임을 밝히고, 작가의 주관적 개념이 독자와 원래 세계 사이에 존재한다고 구체화한다. 따라서 현실 세계 설명(C) → 여과된 허구 세계 제시(B) → 여과 주체(작가) 설명(A) 순서가 가장 논리적이다.

5. [정답] ⑤

[해설]

주어진 문장은 '기존 직원을 회사 내 새로운 직책에 재교육하는 것'이 해고의 두려움을 줄여줄 것이라는 내용이다. 글은 로봇 도입으로 인한 노동자의 두려움을 완화하는 방안들을 제시한다. ⑤ 앞 문장까지는 로봇 도입 계획에 노동자를 참여시키고 비용 절감 계획을 공동으로 수립해야 한다는 내용이다.

⑤ 뒤 문장은 대체된 인간 노동자들을 로봇의 능력을 넘어서는 '판단과 결정이 필요한 직책으로 옮겨야 한다(should be moved to positions where judgment and decisions... are required)'고 제안한다. '새로운 직책으로 옮기는 것'과 주어진 문장의 '새로운 직책을 위한 재교육'은 자연스럽게 연결된다. 재교육을 통해 새로운 직책으로 이동시키는 구체적인 방안이므로 ⑤가 가장 적절한 위치이다.

6. [정답] ③

[해설]

주어진 문장은 '차이점은(The difference is that)' 게임 세계에서 행동은 오직 아바타의 가상 신체 공간을 통해서만 탐색될 수 있다는 것이다. 이 문장은 현실 세계와 게임 세계의 차이점을 명시적으로 설명한다. ②번 문장에서 '현실 세계에서처럼(As in the real world), 인식은 행동을 요구한다'고 일반 원리를 제시한다. 이 원리가 현실과 게임에서 어떻게 다르게 적용되는지를 설명해야 자연스럽다. 주어진 문장은 바로 그 '차이점'을 설명해주므로, ②번 문장 바로 뒤인 ③번 자리에 들어가야 한다. 그 뒤에 이어지는 '플레이어는 자신의 인식 영역을 게임으로 확장한다'는 문장은 주어진 문장에 대한 부연 설명으로 자연스럽게 연결된다.
