

2027학년도 수능 대비 모의평가

1. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오.

In the post-World War II years after 1945, unparalleled economic growth fueled a building boom and a massive migration from the central cities to the new suburban areas. The suburbs were far more dependent on the automobile, signaling the shift from primary dependence on public transportation to private cars. Soon this led to the construction of better highways and freeways and the decline and even loss of public transportation. With all of these changes came a _____ of leisure. As more people owned their own homes, with more space inside and lovely yards outside, their recreation and leisure time was increasingly centered around the home or, at most, the neighborhood. One major activity of this home-based leisure was watching television. No longer did one have to ride the trolley to the theater to watch a movie; similar entertainment was available for free and more conveniently from television.

- ① downfall
- ② uniformity
- ③ restoration
- ④ privatization
- ⑤ customization

2. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오. (3점)

Whatever their differences, scientists and artists begin with the same question: can you and I see the same thing the same way? If so, how? The scientific thinker looks for features of the thing that can be stripped of subjectivity — ideally, those aspects that can be quantified and whose values will thus never change from one observer to the next. In this way, he arrives at a reality independent of all observers. The artist, on the other hand, relies on the strength of her artistry to effect a marriage between her own subjectivity and that of her readers. To a scientific thinker, this must sound like magical thinking: you're saying you will imagine something so hard it'll pop into someone else's head exactly the way you envision it? The artist has sought the opposite of the scientist's observer-independent reality. She creates a reality dependent upon observers, indeed a reality in which in order for it to exist at all.

- ① human beings must participate
- ② objectivity should be maintained
- ③ science and art need to harmonize
- ④ readers remain distanced from the arts
- ⑤ she is disengaged from her own subjectivity

3. 주어진 글 다음에 이어질 글의 순서로 가장 적절한 것은?

Wildfire is a natural phenomenon in many Australian environments. The intentional setting of fire to manage the landscape was practised by Aboriginal people for millennia.

- (A) However, the pattern of burning that stockmen introduced was unlike previous regimes. When conditions allowed, they would set fire to the landscape as they moved their animals out for the winter. This functioned to clear woody vegetation and also stimulated new plant growth in the following spring.
- (B) Although grasses were the first kinds of plants to recolonize the burnt areas they were soon succeeded by further woody plants and shrubs. About the only strategy to prevent such regrowth was further burning essentially using fire to control the consequences of using fire.
- (C) The young shoots were a ready food source for their animals when they returned. However, the practice also tended to reinforce the scrubby growth it was intended to control.

4. 주어진 글 다음에 이어질 글의 순서로 가장 적절한 것은?

If we take an evolutionary look at our beginnings, we see a life in which high levels of physical activity were required for survival.

- (A) There are fewer manual jobs, we do not need to travel on foot, we do not need to hunt and harvest for our food, and many domestic chores have been mechanized. While these changes have created many benefits for our longevity and quality of life, they have also created many problems.
- (B) Lack of sufficient physical activity has now been linked to at least 17 unhealthy conditions, almost all of which are chronic diseases or considered risk factors for chronic diseases. Adrienne Hardman has summarized this serious situation for public health: "Physical inactivity is a waste of human potential for health and well-being."
- (C) Even one century ago, most people needed to be physically active to work, to travel, and to take care of homes and families. Our modern world has engineered such activity out of our lives.

5. 글의 흐름으로 보아, 주어진 문장이 들어가기에 가장 적절한 곳을 고르시오.

Also, it has become difficult for companies to develop new pesticides, even those that can have major beneficial effects and few negative effects.

Simply maintaining yields at current levels often requires new cultivars and management methods, since pests and diseases continue to evolve, and aspects of the chemical, physical, and social environment can change over several decades. (①) In the 1960s, many people considered pesticides to be mainly beneficial to mankind. (②) Developing new, broadly effective, and persistent pesticides often was considered to be the best way to control pests on crop plants. (③) Since that time, it has become apparent that broadly effective pesticides can have harmful effects on beneficial insects, which can negate their effects in controlling pests, and that persistent pesticides can damage non-target organisms in the ecosystem, such as birds and people. (④) Very high costs are involved in following all of the procedures needed to gain government approval for new pesticides. (⑤) Consequently, more consideration is being given to other ways to manage pests, such as incorporating greater resistance to pests into cultivars by breeding and using other biological control methods.

6. 글의 흐름으로 보아, 주어진 문장이 들어가기에 가장 적절한 곳을 고르시오.

There's a reason for that: traditionally, park designers attempted to create such a feeling by planting tall trees at park boundaries, building stone walls, and constructing other means of partition.

Parks take the shape demanded by the cultural concerns of their time. Once parks are in place, they are no inert stage — their purposes and meanings are made and remade by planners and by park users. Moments of park creation are particularly telling, however, for they reveal and actualize ideas about nature and its relationship to urban society. (①) Indeed, what distinguishes a park from the broader category of public space is the representation of nature that parks are meant to embody. (②) Public spaces include parks, concrete plazas, sidewalks, even indoor atriums. (③) Parks typically have trees, grass, and other plants as their central features. (④) When entering a city park, people often imagine a sharp separation from streets, cars, and buildings. (⑤) What's behind this idea is not only landscape architects' desire to design aesthetically suggestive park spaces, but a much longer history of Western thought that envisions cities and nature as antithetical spaces and oppositional forces.

정답 및 해설

1. [정답] ④

[해설]

지문은 2차 세계대전 이후 사람들이 대중교통 대신 자가용(private cars)을 이용하고, 극장 대신 집에서 TV를 보는 등 여가 생활의 중심이 공적(public) 공간에서 사적(private) 공간인 '집(home)'으로 옮겨갔음을 설명한다. 이러한 변화는 '여가의 사유화(privatization of leisure)'로 요약할 수 있다.

2. [정답] ①

[해설]

과학자는 관찰자로부터 독립적인(observer-independent) 현실을 추구하는 반면, 예술가는 자신의 주관성과 독자(관찰자)의 주관성을 결합시켜 '관찰자에게 의존하는(dependent upon observers)' 현실을 창조합니다. 따라서 예술가가 창조하는 현실은 그것이 존재하기 위해서 관찰자, 즉 '인간이 참여해야만 하는(human beings must participate)' 현실입니다.

3. [정답] ①

[해설]

주어진 글에서 호주 원주민의 불 사용을 언급한 후, (A)에서 'However'를 통해 목축업자들(stockmen)의 다른 방식('unlike previous regimes')을 소개하며 자연스럽게 연결된다. (A)의 마지막 부분에서 언급된 'new plant growth'가 (C)의 'The young shoots'로 이어진다. (C)에서는 이러한 방식이 의도와 달리 관목 성장을 강화하는 문제점을 제기하고, (B)에서는 'such regrowth'로 이 문제점을 구체화하며 그에 대한 해결책으로 또 다른 불 사용을 언급하는 흐름이 가장 논리적이다. 따라서 정답은 (A)-(C)-(B)이다.

4. [정답] ④

[해설]

제시문은 과거 생존을 위해 높은 신체 활동이 필요했음을 언급한다. (C)는 '불과 1세기 전'으로 시간대를 좁혀 과거와 현재를 연결하며, 현대 사회가 신체 활동을 없앴다고 설명한다. (A)는 (C)의 내용에 대한 구체적인 예시(수작업 감소 등)를 들고, '이러한 변화들(these changes)'이라는 지시어로 (C)의 내용을 받는다. (B)는 (C)와 (A)에서 설명한 '충분한 신체 활동 부족(Lack of sufficient physical activity)'이 건강에 미치는 부정적인 결과를 요약하며 글을 마무리한다. 따라서 (C)-(A)-(B)가 가장 논리적인 순서이다.

5. [정답] ④

[해설]

주어진 문장은 '또한, 기업들이 새로운 살충제를 개발하는 것이 어려워졌다'는 내용이다. '또한(Also)'은 앞선 내용에 추가적인 정보를 더할 때 사용된다. ③번 문장에서는 광범위한 살충제의 해로운 효과에 대해 언급했다. 주어진 문장은 이러한 문제에 더하여 '개발의 어려움'이라는 또 다른 문제를 제시한다. 그리고 ④번 다음 문장에서는 '새로운 살충제에 대한 정부 승인을 얻는 데 필요한 절차를 따르는 데 매우 높은 비용이 수반된다'고 하여 주어진 문장에서 언급한 '개발이 어려운' 이유를 구체적으로 설명하고 있다. 따라서 주어진 문장은 ④번에 들어가는 것이 가장 자연스럽다.

6. [정답] ⑤

[해설]

주어진 문장은 '그것에는 이유가 있다(There's a reason for that)'로 시작하며, 공원 설계자들이 '그러한 느낌(such a feeling)'을 의도적으로 만들어냈다고 설명한다. 여기서 지시어 'that'과 'such a feeling'이 가리키는 것은 바로 앞 문장인 ④번 문장의 '도시 공원에 들어갈 때 사람들이 종종 거리, 자동차, 건물로부터의 뚜렷한 분리를 상상한다'는 내용이다. 주어진 문장은 이러한 느낌이 생기는 이유를 설명하고, ⑤번 문장은 '이러한 생각(this idea)'의 배후에 있는 더 깊은 사상적 역사를 설명하므로, 주어진 문장은 ④과 ⑤ 사이에 위치하는 것이 가장 논리적이다. (정답지에는 ⑤번으로 표기되지만, 이는 ⑤번 위치에 삽입하라는 의미이다.)
