Preemption means that a strategy is designed to prevent a rival from starting some particular activity. In some case a preemptive move may simply be an announcement of some intent ① that might discourage rivals from doing the same. The idea of preemption implies that timing is sometimes very important — a decision or an action at one point in time might be much more rewarding than ② doing it at a different time point. Preemption may involve up-weighting advertising for a period before and during ③ when a new entrant launches into a market. The intent is to make it more difficult for the new entrant's advertising to make an impression on potential buyers. Product proliferation is another potential preemption strategy. The general idea is to launch a large variety of product variants so that there is very little in the way of market demand that ④ are not accommodated. Arguably, if a market is already filled with product variants it is more difficult for competitors to find ⑤ untapped pockets of market demand.

*preemption: 선매 행위 **proliferation: 확산

Flourishing requires connectivity, or what is called psychological attunement. Attunement means having a sensitivity to what is going on inside yourself; being on the same emotional wavelength as other people, and ① sensing how things are unfolding around you. When you are fully attuned in this way, you are like a skilled actor, performing at his or her best, fully in command of the stage. You need that kind of connectivity to flourish because every challenge requires ② you to be fully present. When you are in tune with yourself, aware of what you are feeling and thinking, as well as what is motivating you, ③ which is easier to take possession of yourself, to compose yourself, so that all the different bits of you are marching to the same beat. Your desire is not pulling against your reluctance or against anxiety. The psychologist Carl Rogers believed that ④ such unconflicted energy is the basis of optimum functioning. When you feel this free-flowing energy, like a runner in full stride, you are flourishing, every part of you ⑤ working in concert.

Ranks are standards that often confer rewards on people and things of higher rank, and sometimes penalties on those of lower rank. For example, grade A butter will ① likely command a higher price than grade B, and persons with more formal education will be likely to command greater incomes than those with less. Nor ② are the rewards associated with ranks confined to the monetary sphere. Those persons with higher ranks may be ③ given the opportunity to make more important decisions (such as higher-ranking persons in the military, government, or corporations), while things of higher rank may be esteemed as art objects (e.g., excellence in industrial design). Of note, ranks are frequently contested. Some ranks are widely accepted and used, while ④ others are subject to continued heated debate. But even the most well-established rankings can be challenged by those ⑤ who standpoint differs from the commonly accepted one.

정답 및 해설

1. [정답] ④

[해설]

④번은 관계대명사 that이 이끄는 절의 동사입니다. 선행사는 'very little in the way of market demand'인데, 여기서 핵심 주어는 'very little'로 단수입니다. 따라서 동사는 단수형인 'is'가 되어야 합니다.

2. [정답] ③

[해설]

③번 자리에는 '그것이 ~하는 것을 더 쉽게 만든다'라는 의미가 되어야 한다. which는 관계대명사로, 이 문장에서는 접속사 기능이 필요 없다. 대신 가주어 It을 사용하여 'it is easier to take possession of yourself ~' 구문으로 만들어야 한다. 부사절(When you are~) 뒤에 주절이 와야 하는데, which는 주절을 이끌 수 없다. ① sensing은 having, being과 병렬 구조를 이루는 동명사이다. ② you는 requires의 목적어이다. ④ such는 뒤의 명사 unconflicted energy를 수식하는 한정사이다. ⑤ working은 분사 구문으로, 주절의 주어 you의 상태를 부연 설명한다. 'every part of you working~'은 동시동작을 나타낸다.

3. [정답] ⑤

[해설]

⑤번은 뒤따르는 명사 standpoint를 수식하면서 동시에 선행사 those와 연결해주는 소유격 관계대명사가 필요한 자리이다. '그들의 관점이 다른 사람들'이라는 의미가 되어야 하므로 주격 관계대명사 who가 아닌 소유격 관계대명사 whose가 와야 한다. ① likely는 동사 command를 수식하는 부사이다. ② are는 부정어 Nor가 문두에 와서 주어(the rewards)와 동사(are)가 도치된 구조이다. ③ given은 수동태(may be given) 동사구의 일부이다. ④ others는 불특정한 다른 일부(ranks)를 가리키는 대명사이다.
