

2027학년도 수능 대비 모의평가

1. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?

What comes to mind when we think about time? Let us go back to 4,000 B.C. in ancient China where some early clocks were invented. ① To demonstrate the idea of time to temple students, Chinese priests used to dangle a rope from the temple ceiling with knots representing the hours. They would light it with a flame from the bottom so that it burnt evenly, ② indicating the passage of time. Many temples burnt down in those days. The priests were obviously not too happy about that until someone invented a clock ③ was made of water buckets. It worked by punching holes in a large bucket ④ full of water, with markings representing the hours, to allow water to flow out at a constant rate. The temple students would then measure time by how fast the bucket drained. It was much better than burning ropes for sure, but more importantly, it taught the students ⑤ that once time was gone, it could never be recovered.

2. (A), (B), (C)의 각 네모 안에서 어법에 맞는 표현으로 가장 적절한 것은?

English speakers have one of the simplest systems for describing familial relationships. Many African language speakers would consider it absurd to use a single word like "cousin" to describe both male and female relatives, or not to distinguish whether the person (A) described / describing is related by blood to the speaker's father or to his mother. To be unable to distinguish a brother-in-law as the brother of one's wife or the husband of one's sister would seem confusing within the structure of personal relationships existing in many cultures. Similarly, how is it possible to make sense of a situation (B) which / in which a single word "uncle" applies to the brother of one's father and to the brother of one's mother? The Hawaiian language uses the same term to refer to one's father and to the father's brother. People of Northern Burma, who think in the Jinghpaw language, (C) has / have eighteen basic terms for describing their kin. Not one of them can be directly translated into English.

- ① described which have
- ② described in which has
- ③ described in which have
- ④ describing which has
- ⑤ describing in which has

3. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?

Viewing the stress response as a resource can transform the physiology of fear into the biology of courage. It can turn a threat into a challenge and can help you ① do your best under pressure. Even when the stress doesn't feel helpful as in the case of anxiety welcoming it can transform ② it into something that is helpful: more energy, more confidence, and a greater willingness to take action. You can apply this strategy in your own life anytime you notice signs of stress. When you feel your heart beating or your breath quickening, ③ realizing that it is your body's way of trying to give you more energy. If you notice tension in your body, remind yourself ④ that the stress response gives you access to your strength. Sweaty palms? Remember what it felt like ⑤ to go on your first date palms sweat when you're close to something you want.

정답 및 해설

1. [정답] ③

[해설]

③번이 포함된 문장에서 동사는 invented입니다. 'a clock'은 invented의 목적어입니다. 'was made'는 정동사이므로 목적어 뒤에 바로 올 수 없습니다. a clock을 수식하는 관계대명사절 'that(which) was made of water buckets' 또는 과거분사구 'made of water buckets' 형태가 되어야 합니다.

2. [정답] ③

[해설]

(A) 뒤에서 the person을 수식하는 분사 자리입니다. 그 사람이 '묘사되는' 것이므로 수동의 의미를 나타내는 과거분사 described가 맞습니다. (B) 뒤에 'a single word "uncle" applies...'라는 완전한 문장이 이어집니다. 선행사 a situation을 수식하며 '그 상황 속에서'라는 의미이므로 관계부사 역할을 하는 'in which'가 적절합니다. (C) 주어는 People of Northern Burma로 복수이므로 동사는 have가 와야 합니다.

3. [정답] ③

[해설]

③번은 주절의 동사가 필요한 자리이다. 'When you feel ~, '는 부사절이므로, 주절에 해당하는 명령문이 와야 한다. 따라서 준동사인 realizing이 아니라 동사원형 Realize가 와서 '~라는 것을 깨달아라'라는 명령문이 되어야 한다. ① do는 사역동사 help의 목적격 보어로 동사원형 또는 to부정사가 올 수 있다. ② it은 앞서 언급된 a resource를 가리키는 대명사이다. ④ that은 remind의 직접목적어 역할을 하는 명사절을 이끄는 접속사이다. ⑤ to go는 가주어 it에 대한 진주어 to부정사구이다.
