

2027학년도 수능 대비 모의평가

1. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오.

We know that animals have evolved a variety of patterns to manipulate the perceptions of their predators to afford themselves a modicum of safety. Greater Bower birds utilize _____ in the mating domain. Males construct a bower; its function is to provide an arena in which males display to females standing in an avenue that leads up to the bower. The males decorate the avenue with a variety of objects, such as stones and shells. But they do not do so in a chaotic manner. The larger objects are placed closer to the bower and the smaller objects farther away. This creates a forced perspective the opposite of the Cinderella Castle; the bower appears smaller than it actually is. Endler and his colleagues suggested that the male courting in the bower now appears larger and thus more attractive to the female. Data on male mating success collected in the wild supports their hypothesis.

- ① genetic variations
- ② perceptual biases
- ③ vocal attractiveness
- ④ decorating skills
- ⑤ locational advantages

2. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오.

It is important to recognise the interdependence between individual, culturally formed actions and the state of cultural integration. People work within the forms provided by the cultural patterns that they have internalised, however contradictory these may be. Ideas are worked out as logical implications or consequences of other accepted ideas, and it is in this way that cultural innovations and discoveries are possible. New ideas are discovered through logical reasoning, but such discoveries are inherent in and integral to the conceptual system and are made possible only because of the acceptance of its premises. For example, the discoveries of new prime numbers are 'real' consequences of the particular number system employed. Thus, cultural ideas show 'advances' and 'developments' because they . The cumulative work of many individuals produces a corpus of knowledge within which certain 'discoveries' become possible or more likely. Such discoveries are 'ripe' and could not have occurred earlier and are also likely to be made simultaneously by numbers of individuals. 3점

*corpus: 집적() **simultaneously: 동시에

- ① are outgrowths of previous ideas
- ② stem from abstract reasoning ability
- ③ form the basis of cultural universalism
- ④ emerge between people of the same age
- ⑤ promote individuals' innovative thinking

3. 주어진 글 다음에 이어질 글의 순서로 가장 적절한 것은?

The fossil record provides evidence of evolution. The story the fossils tell is one of change. Creatures existed in the past that are no longer with us. Sequential changes are found in many fossils showing the change of certain features over time from a common ancestor, as in the case of the horse.

- (A) If multicelled organisms were indeed found to have evolved before single-celled organisms, then the theory of evolution would be rejected. A good scientific theory always allows for the possibility of rejection. The fact that we have not found such a case in countless examinations of the fossil record strengthens the case for evolutionary theory.
- (B) The fossil record supports this prediction —multicelled organisms are found in layers of earth millions of years after the first appearance of single-celled organisms. Note that the possibility always remains that the opposite could be found.
- (C) Apart from demonstrating that evolution did occur, the fossil record also provides tests of the predictions made from evolutionary theory. For example, the theory predicts that single-celled organisms evolved before multicelled organisms.

4. 주어진 글 다음에 이어질 글의 순서로 가장 적절한 것은?

There are a number of human resource management practices that are necessary to support organizational learning.

- (A) Their role should be to assist, consult, and advise teams on how best to approach learning. They must be able to develop new mechanisms for cross-training peers — team members — and new systems for capturing and sharing information. To do this, human resource development professionals must be able to think systematically and understand how to promote learning within groups and across the organization.
- (B) For example, performance evaluation and reward systems that reinforce long-term performance and the development and sharing of new skills and knowledge are particularly important. In addition, the human resource development function may be dramatically changed to keep the emphasis on continuous learning.
- (C) In a learning organization, every employee must take the responsibility for acquiring and transferring knowledge. Formal training programs, developed in advance and delivered according to a preset schedule, are insufficient to address shifting training needs and encourage timely information sharing. Rather, human resource development professionals must become learning facilitators. 3점

5. 글의 흐름으로 보아, 주어진 문장이 들어가기에 가장 적절한 곳을 고르시오.

Continuous emissions measurement can be costly, particularly where there are many separate sources of emissions, and for many pollution problems this may be a major disincentive to direct taxation of emissions.

Environmental taxes based directly on measured emissions can, in principle, be very precisely targeted to the policy's environmental objectives. (①) If a firm pollutes more, it pays additional tax directly in proportion to the rise in emissions. (②) The polluter thus has an incentive to reduce emissions in any manner that is less costly per unit of abatement than the tax on each unit of residual emissions. (③) The great attraction of basing the tax directly on measured emissions is that the actions the polluter can take to reduce tax liability are actions that also reduce emissions. (④) Nevertheless, the technologies available for monitoring the concentrations and flows of particular substances in waste discharges have been developing rapidly. (⑤) In the future, it may be possible to think of taxing measured emissions in a wider range of applications.

주어진 문장 Continuous emissions measurement can be costly, particularly where there are many separate sources of emissions, and for many pollution problems this may be a major disincentive to direct taxation of emissions.

6. 글의 흐름으로 보아, 주어진 문장이 들어가기에 가장 적절한 곳을 고르시오. (3점)

On top of the hurdles introduced in accessing his or her money, if a suspected fraud is detected, the account holder has to deal with the phone call asking if he or she made the suspicious transactions.

Each new wave of technology is intended to enhance user convenience, as well as improve security, but sometimes these do not necessarily go hand-in-hand. For example, the transition from magnetic stripe to embedded chip slightly slowed down transactions, sometimes frustrating customers in a hurry. (①) Make a service too burdensome, and the potential customer will go elsewhere. (②) This obstacle applies at several levels. (③) Passwords, double-key identification, and biometrics such as fingerprint-, iris-, and voice recognition are all ways of keeping the account details hidden from potential fraudsters, of keeping your data dark. (④) But they all inevitably add a burden to the use of the account. (⑤) This is all useful at some level — indeed, it can be reassuring knowing that your bank is keeping alert to protect you — but it becomes tiresome if too many such calls are received.

정답 및 해설

1. [정답] ②

[해설]

Greater Bower bird 수컷은 큰 물체는 가까이, 작은 물체는 멀리 두어 '강제 원근법(forced perspective)'을 만든다. 이로 인해 정자는 실제보다 작아 보이고, 그 안의 수컷은 더 커 보여 암컷에게 매력적으로 보이게 된다. 이는 암컷의 크기 '인식(perception)'을 조작하여 자신의 이점을 취하는 행동 이므로 '인지적 편향(perceptual biases)'을 이용하는 것이다.

2. [정답] ①

[해설]

지문은 새로운 아이디어나 발견이 기존에 받아들여진 생각들의 '논리적 귀결이나 결과(logical implications or consequences of other accepted ideas)'로서 나타난다고 설명한다. 즉, 새로운 발견은 기존의 개념 체계에 내재되어 있으며 그 전제를 받아들일 때만 가능하다. 따라서 문화적 아이디어의 '진보'와 '발전'은 그것들이 '이전 아이디어들의 파생물(outgrowths of previous ideas)'이기 때문에 가능하다는 결론에 이를 수 있다.

3. [정답] ⑤

[해설]

주어진 글은 화석 기록이 진화의 증거라고 말한다. (C)에서 화석 기록이 진화론의 '예측'을 시험한다고 하며 '단세포 생물이 다세포 생물보다 먼저 진화했다'는 예측을 예로 든다. (B)에서 'this prediction'으로 (C)의 예측을 받아, 화석 기록이 그 예측을 뒷받침한다고 설명한다. 또한 (B)의 끝부분에서 반대의 경우가 발견될 가능성을 언급한다. (A)에서 'If multicelled organisms were indeed found to have evolved before single-celled organisms'라고 가정하며 (B) 끝에서 언급된 '반대의 경우'를 구체적으로 설명하고, 이것이 진화론이 반증 가능한 과학 이론임을 보여준다고 마무리한다. 따라서 (C)-(B)-(A) 순서가 가장 자연스럽다.

4. [정답] ③

[해설]

주어진 문장에서 조직 학습을 위한 인사 관리(HRM) 관행을 소개한다. (B)는 'For example'을 통해 그 구체적인 예시(성과 평가, 보상 제도)를 들며 시작하고, 인적 자원 개발(HRD) 기능의 변화 필요성을 언급하며 끝맺는다. (C)는 기존의 공식적 훈련 프로그램이 불충분하다고 지적하며, HRD 전문가가 '학습 촉진자(learning facilitators)'가 되어야 한다는 (B)에서 언급된 변화의 방향을 구체화한다. 마지막으로 (A)는 'Their role'이라는 지시어로 (C)의 'learning facilitators'를 받아 그들의 역할을 상세히 설명한다. 따라서 (B)-(C)-(A) 순서가 가장 논리적이다.

5. [정답] ④

[해설]

주어진 문장은 배출량 직접 측정 방식의 단점(비용 문제, 저해 요인)을 제시한다. 글의 ③번까지는 직접 과세 방식의 장점과 매력을 설명하고 있다. ④번 앞까지 장점을 서술하다가, 주어진 문장의 단점을 삽입하고, 그 뒤에 나오는 ④번 문장이 'Nevertheless(그럼에도 불구하고)'로 시작하며 기술 발전으로 단점이 극복될 수 있다는 반론을 제시하는 흐름이 가장 자연스럽다. 따라서 주어진 문장은 ④번에 들어 가야 한다.

6. [정답] ⑤

[해설]

주어진 문장은 사기 의심 거래가 탐지되었을 때 계좌 주인이 확인 전화를 받아야 하는 또 다른 장애물에 대해 이야기한다. ⑤번 앞 문장까지는 비밀번호, 생체 인식 등 계좌 사용에 부담(burden)을 더하는 보안 장치들을 열거한다. ⑤번 뒷 문장은 'it becomes tiresome if too many such calls are received(그러한 전화를 너무 많이 받으면 피곤해진다)'라고 말하는데, 여기서 'such calls(그러한 전화들)'가 가리키는 대상이 앞에는 없다. 주어진 문장에서 언급된 'the phone call'이 바로 'such calls'의 구체적인 내용이므로, 주어진 문장은 ⑤번에 들어가야 논리적 흐름이 완성된다.
