

2027학년도 수능 대비 모의평가

1. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오.

We are famously living in the era of the attention economy, where the largest and most profitable businesses in the world are those that consume my attention. The advertising industry is literally dedicated to capturing the conscious hours of my life and selling them to someone else. It might seem magical that so many exciting and useful software systems are available to use for free, but it is now conventional wisdom that if you can't see who is paying for something that appears to be free, then _____. Our creative engagement with other people is mediated by AI-based recommendation systems that are designed to trap our attention through the process that Nick Seaver calls captology, keeping us attending to work sold by one company rather than another, replacing the freedom of personal exploration with algorithm-generated playlists or even algorithm-generated art.

- ① all of your attention has already been spent
- ② the real product being sold is you
- ③ your privacy is being violated
- ④ the public may be sponsoring you
- ⑤ you owe the benefits to your friend AI

2. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오.

News, especially in its televised form, is constituted not only by its choice of topics and stories but by its _____. Presentational styles have been subject to a tension between an informational-educational purpose and the need to engage us entertainingly. While current affairs programmes are often 'serious' in tone sticking to the 'rules' of balance, more popular programmes adopt a friendly, lighter, idiom in which we are invited to consider the impact of particular news items from the perspective of the 'average person in the street'. Indeed, contemporary news construction has come to rely on an increased use of faster editing tempos and 'flashier' presentational styles including the use of logos, sound-bites, rapid visual cuts and the 'star quality' of news readers. Popular formats can be said to enhance understanding by engaging an audience unwilling to endure the longer verbal orientation of older news formats. However, they arguably work to reduce understanding by failing to provide the structural contexts for news events.

- ① coordination with traditional display techniques
- ② prompt and full coverage of the latest issues
- ③ educational media contents favoured by producers
- ④ commitment to long-lasting news standards
- ⑤ verbal and visual idioms or modes of address

3. 주어진 글 다음에 이어질 글의 순서로 가장 적절한 것은? (3점)

A good example of chaos is the magnetic pendulum sold as an executive toy. It has four magnets arranged in a square at the base and a pendulum that swings back and forth between them.

- (A) In order to produce chaos, the iteration has to be within what is called a nonlinear system. Nor are all nonlinear systems chaotic: to become so they need to be pushed beyond a certain point, called a bifurcation. Before that point is reached they may behave in a quite orderly fashion.
- (B) Release the pendulum and note the magnets that it visits, and in what order. If the pendulum is released from the same position a second time, the pattern of movement may at first be the same but soon it will become completely different. In fact, the pattern of its movement is chaotic.
- (C) No matter how much care is taken to start the pendulum in the same position, it will visit an entirely different set of points on the two occasions. Chaotic systems are generated by iteration, though not all iteration leads to chaos.

The most commonly known form of results-based pricing is a practice called contingency pricing, used by lawyers.

- (A) Therefore, only an outcome in the client's favor is compensated. From the client's point of view, the pricing makes sense in part because most clients in these cases are unfamiliar with and possibly intimidated by law firms. Their biggest fears are high fees for a case that may take years to settle.
- (B) By using contingency pricing, clients are ensured that they pay no fees until they receive a settlement. In these and other instances of contingency pricing, the economic value of the service is hard to determine before the service, and providers develop a price that allows them to share the risks and rewards of delivering value to the buyer.
- (C) Contingency pricing is the major way that personal injury and certain consumer cases are billed. In this approach, lawyers do not receive fees or payment until the case is settled, when they are paid a percentage of the money that the client receives. 3점

5. 글의 흐름으로 보아, 주어진 문장이 들어가기에 가장 적절한 곳을 고르시오.

Because the manipulation of digitally converted sounds meant the reprogramming of binary information, editing operations could be performed with millisecond precision.

The shift from analog to digital technology significantly influenced how music was produced. First and foremost, the digitization of sounds — that is, their conversion into numbers — enabled music makers to undo what was done. (①) One could, in other words, twist and bend sounds toward something new without sacrificing the original version. (②) This "undo" ability made mistakes considerably less momentous, sparking the creative process and encouraging a generally more experimental mindset. (③) In addition, digitally converted sounds could be manipulated simply by programming digital messages rather than using physical tools, simplifying the editing process significantly. (④) For example, while editing once involved razor blades to physically cut and splice audiotapes, it now involved the cursor and mouse-click of the computer-based sequencer program, which was obviously less time consuming. (⑤) This microlevel access at once made it easier to conceal any traces of manipulations (such as joining tracks in silent spots) and introduced new possibilities for manipulating sounds in audible and experimental ways.

6. 글의 흐름으로 보아, 주어진 문장이 들어가기에 가장 적절한 곳을 고르시오. (3점)

This makes sense from the perspective of information reliability.

The dynamics of collective detection have an interesting feature. Which cue(s) do individuals use as evidence of predator attack? In some cases, when an individual detects a predator, its best response is to seek shelter. (①) Departure from the group may signal danger to nonvigilant animals and cause what appears to be a coordinated flushing of prey from the area. (②) Studies on dark-eyed juncos (a type of bird) support the view that nonvigilant animals attend to departures of individual group mates but that the departure of multiple individuals causes a greater escape response in the nonvigilant individuals. (③) If one group member departs, it might have done so for a number of reasons that have little to do with predation threat. (④) If nonvigilant animals escaped each time a single member left the group, they would frequently respond when there was no predator (a false alarm). (⑤) On the other hand, when several individuals depart the group at the same time, a true threat is much more likely to be present.

정답 및 해설

1. [정답] ②

[해설]

지문은 '주의력 경제(attention economy)'에 대해 설명하며, 기업들이 우리의 주의력을 사로잡아 다른 이에게 판매한다고 말한다. 빈칸은 '무료로 보이는 것에 대해 누가 돈을 내는지 알 수 없다면'이라는 조건절에 이어지는 내용이다. 이는 '실제 팔리는 상품은 바로 당신이다(the real product being sold is you)'라는, 무료 온라인 서비스의 비즈니스 모델을 지적하는 관용적인 지혜와 일맥상통한다.

2. [정답] ⑤

[해설]

이 글은 뉴스가 주제 선택뿐만 아니라 빈칸에 의해서도 구성된다고 말한다. 이어지는 내용은 '제시 스타일(Presentational styles)', '친근하고 가벼운 표현 방식(friendly, lighter, idiom)', '더 빠른 편집 속도와 더 현란한 제시 스타일(faster editing tempos and 'flashier' presentational styles)' 등 뉴스를 전달하는 방식을 구체적으로 설명한다. 이러한 예시들을 포괄하는 개념은 '언어적, 시각적 표현 방식 또는 전달 방식(verbal and visual idioms or modes of address)'이다.

3. [정답] ③

[해설]

제시문은 카오스의 예시로 '자기 진자' 장난감을 소개한다. (B)는 '추를 놓아라(Release the pendulum)'라며 제시된 장난감으로 직접 실험하는 상황을 묘사하며, 그 움직임이 '카오스적(chaotic)'임을 보여준다. (C)는 (B)에서 관찰된 카오스적 움직임을 부연 설명하며, 카오스 시스템이 '반복(iteration)'에 의해 생성된다는 개념을 도입한다. (A)는 (C)의 마지막에 나온 '반복(iteration)'이 카오스를 만들기 위한 조건(비선형 시스템, 분기점 등)을 설명하며 이론적으로 심화시킨다. 따라서 (B)-(C)-(A) 순서가 가장 자연스럽다.

4. [정답] ④

[해설]

주어진 문장에서 변호사가 사용하는 '승소 시 보수 약정(contingency pricing)'을 소개한다. (C)는 이것이 개인 상해 소송 등에서 사용되는 방식이며, 소송이 해결될 때까지 변호사가 보수를 받지 않는다고 구체적으로 설명한다. (A)는 'Therefore'를 통해 (C) 내용의 결과, 즉 고객에게 유리한 결과에 대해서만 보수가 지급된다는 점과 이것이 고객에게 유리한 이유를 설명한다. (B)는 (C)와 (A)의 내용을 요약하며, 이 방식이 고객에게 주는 확신과 서비스 제공자가 위험과 보상을 공유하는 일반적인 원리를 설명하며 마무리한다. 따라서 '개념 소개 → 구체적 방식 설명 → 결과 및 고객 관점 → 요약 및 일반화'의 흐름인 (C)-(A)-(B)가 가장 적절하다.

5. [정답] ⑤

[해설]

주어진 문장은 디지털 사운드 조작이 2진 정보의 재프로그래밍을 의미하기 때문에 '밀리초 단위의 정밀함(millisecond precision)'으로 편집이 가능해졌다고 설명한다. ⑤번 뒤의 문장은 '이러한 미시적 수준의 접근(This microlevel access)'을 언급하는데, 이 지시어가 가리키는 대상이 바로 주어진 문장에서 설명한 '밀리초 단위의 정밀함'이다. 따라서 주어진 문장은 ⑤에 들어가 'microlevel access'의 구체적인 의미를 제공하는 것이 가장 논리적이다.

6. [정답] ③

[해설]

주어진 문장은 '이것은 정보 신뢰도의 관점에서 이치에 맞는다'이다. '이것(This)'은 앞선 내용을 가리킨다. ②번 문장에서 '여러 개체의 이탈이 더 큰 탈출 반응을 유발한다'는 연구 결과를 제시했다. 주어진 문장은 이 연구 결과가 '정보 신뢰도' 때문에 합리적이라고 설명하는 부분의 도입부 역할을 할 수 있다. ③번 문장부터는 한 개체의 이탈은 신뢰도가 낮은 정보(포식 위협과 관련 없는 여러 이유가 있을 수 있음)이고, ⑤번 문장에서는 여러 개체의 동시 이탈은 신뢰도가 높은 정보(실제 위협일 가능성이 높음)임을 구체적으로 설명한다. 따라서 ②번의 연구 결과를 제시하고, 그 이유를 설명하기 시작하는 ③번 앞에 들어가는 것이 가장 논리적이다.
