

2027학년도 수능 대비 모의평가

1. 밑줄 친 부분이 다음 글에서 의미하는 바로 가장 적절한 것은?

Flicking the collaboration light switch is something that leaders are uniquely positioned to do, because several obstacles stand in the way of people voluntarily working alone. For one thing, the fear of being left out of the loop can keep them glued to their enterprise social media. Individuals don't want to be —or appear to be —isolated. For another, knowing what their teammates are doing provides a sense of comfort and security, because people can adjust their own behavior to be in harmony with the group. It's risky to go off on their own to try something new that will probably not be successful right from the start. But even though it feels reassuring for individuals to be hyperconnected, it's better for the organization if they periodically go off and think for themselves and generate diverse —if not quite mature —ideas. Thus, it becomes the leader's job to create conditions that are good for the whole by enforcing intermittent interaction even when people wouldn't choose it for themselves, without making it seem like a punishment.

*intermittent: 간헐적인

- ① breaking physical barriers and group norms that prohibit cooperation
- ② having people stop working together and start working individually
- ③ encouraging people to devote more time to online collaboration
- ④ shaping environments where higher productivity is required
- ⑤ requiring workers to focus their attention on group projects

2. 다음 글의 제목으로 가장 적절한 것은?

The world has become a nation of laws and governance that has introduced a system of public administration and management to keep order. With this administrative management system, urban institutions of government have evolved to offer increasing levels of services to their citizenry, provided through a taxation process and/or fee for services (e.g., police and fire, street maintenance, utilities, waste management, etc.). Frequently this has displaced citizen involvement. Money for services is not a replacement for citizen responsibility and public participation. Responsibility of the citizen is slowly being supplanted by government being the substitute provider. Consequentially, there is a philosophical and social change in attitude and sense of responsibility of our urban-based society to become involved. The sense of community and associated responsibility of all citizens to be active participants is therefore diminishing. Governmental substitution for citizen duty and involvement can have serious implications. This impedes the nations of the world to be responsive to natural and man-made disasters as part of global preparedness.

*supplant: 대신하다 **impede: 방해하다

- ① A Sound Citizen Responsibility in a Sound Government
- ② Always Better than Nothing: The Roles of Modern Government
- ③ Decreased Citizen Involvement: A Cost of Governmental Services
- ④ Why Does Global Citizenship Matter in Contemporary Society?
- ⑤ How to Maximize Public Benefits of Urban--Based Society

3. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?

Many genetic and biological mechanisms control hunger and satiety, ensuring that people will eat enough ① to meet their energy needs. Throughout most of human history, getting enough food was the primary challenge. The human body developed to function in an environment ② which food was scarce and high levels of physical activity were mandatory for survival. This situation resulted in the development of various physiological mechanisms that encourage the body to deposit energy (i.e., fat) and ③ defend against energy loss. Today's environment, however, is one in which food is widely available, inexpensive, and often high in energy density, while minimal physical activity is required for daily living. Researchers have proposed that the "modern environment has taken body weight control from an instinctual (unconscious) process to ④ one that requires substantial cognitive effort. In the current environment, people who are not devoting substantial conscious effort to managing body weight ⑤ are probably gaining weight." This means that nutrition education has an important role.

4. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?

In technological design, an aspiration towards seamlessness aims to make the technological experience for humans blend seamlessly into our everyday lives. Essentially, this aspiration aims towards experiences where people are no longer (a) ① aware of the technology, the interface or the differences between human-technology and human-human interaction. Considering the metaphor of seams in clothing, we can say that we aspire to seamless aesthetics by stitching the seams closely, pressing them flat and making sure they are (b) ② hidden on the inside so that we wear clothing rather than pieces of fabric. When designers and engineers talk about technological seamlessness, they are often referring to ease of use and convenience. For example, in interface design, an aspiration towards seamlessness (c) ③ ensures the experience for the user flows and is not stressful or irritating. Most of us would have had experiences of (d) ④ poor interface designs or apps in workplaces that make things more complicated and irritating, and have longed for more seamless interfaces. Technological seamlessness can also include less visible screens in new technologies, or virtual reality technologies with a seamless technological design. The aim is to immerse the user experience such that the visual interaction might be described as inside the screen rather than a body interacting with a digital console or object as separate entities. Similarly, seamlessness in humanoid robotic design aims to make humanoids (e) ⑤ distinguishable from a human body.

① (a)

② (b)

③ (c)

④ (d)

⑤ (e)

5. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오. (3점)

That people need other people is hardly news, but for Rousseau this dependence extended far beyond companionship or even love, into the very process of becoming human. Rousseau believed that people are not born but made, every individual a bundle of potentials whose realization requires the active involvement of other people. Self-development is a social process. Self-sufficiency is an impossible fantasy. Much of the time Rousseau wished passionately that it were not: Robinson Crusoe was a favorite book, and he yearned to be free from the pains and uncertainties of social life. But his writings document with extraordinary clarity . "Our sweetest existence is relative and collective, and our true self is not entirely within us." And it is kindness — which Rousseau analyzed under the rubric of *pitié* , which translates as "pity" but is much closer to "sympathy" as Hume and Smith defined it — that is the key to this collective existence.

- ① the necessity of philosophical study to understand human nature
- ② the development of self-sufficiency through literary works
- ③ the shaping of the individual by his emotional attachments
- ④ the making of the self-reliant man through his struggles
- ⑤ the difficulty of trusting other people wholeheartedly

6. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오.

Many people create and share pictures and videos on the Internet. The difficulty is finding what you want. Typically, people want to search using words (rather than, say, example sketches). Because most pictures don't come with words attached, it is natural to try and build tagging systems that tag images with relevant words. The underlying machinery is straightforward — we apply image classification and object detection methods and tag the image with the output words. But tags aren't _____. It matters who is doing what, and tags don't capture this. For example, tagging a picture of a cat in the street with the object categories "cat", "street", "trash can" and "fish bones" leaves out the information that the cat is pulling the fish bones out of an open trash can on the street.

- ① a set of words that allow users to identify an individual object
- ② a comprehensive description of what is happening in an image
- ③ a reliable resource for categorizing information by pictures
- ④ a primary means of organizing a sequential order of words
- ⑤ a useful filter for sorting similar but not identical images
