

2027학년도 수능 대비 모의평가

1. 밑줄 친 부분이 다음 글에서 의미하는 바로 가장 적절한 것은? (3점)

How you focus your attention plays a critical role in how you deal with stress. Scattered attention harms your ability to let go of stress, because even though your attention is scattered, it is narrowly focused, for you are able to fixate only on the stressful parts of your experience. When your attentional spotlight is widened, you can more easily let go of stress. You can put in perspective many more aspects of any situation and not get locked into one part that ties you down to superficial and anxiety-provoking levels of attention. A narrow focus heightens the stress level of each experience, but a widened focus turns down the stress level because you're better able to put each situation into a broader perspective. One anxiety-provoking detail is less important than the bigger picture. It's like transforming yourself into a nonstick frying pan. You can still fry an egg, but the egg won't stick to the pan.

- ① never being confronted with any stressful experiences in daily life
- ② broadening one's perspective to identify the cause of stress
- ③ rarely confining one's attention to positive aspects of an experience
- ④ having a larger view of an experience beyond its stressful aspects
- ⑤ taking stress into account as the source of developing a wide view

2. 다음 글의 제목으로 가장 적절한 것은?

The economic benefit of culturtainment makes it attractive to politicians and policy makers alike. A potential increase in inbound visitor numbers coupled with their demand for related goods and services (travel, accommodation, retail) is an incentive for those within governments and authorities to work with cultural groups in order to develop celebrations and commemorations into larger and more high-profile events. However, such commercialization risks culturtainment becoming homogeneous and losing its original 'message' that could lead to a dilution of audiences. This could also lead to smaller non-commercial independent events being set up that would only serve to divide audiences further. This is something that planners and stakeholders will need to balance against potential financial gain. Changing political, social and religious landscapes will lead to the emergence of new cultures, and with them new culturtainment experiences. Overall this is a healthy growth sector of the entertainment industry, but one that by its very nature is delicate in the face of exploitation.

- ① The Commercialization of Culture and Its Unexpected Benefits
- ② Cash or Soul? When Culture Couples with Entertainment
- ③ Culturtainment: An Ambition of Entertainment to Be a Culture
- ④ New Cultures! The Poisonous Fruit of Culturtainment
- ⑤ Why Balanced Investments Matter in the Entertainment Industry

3. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?

Ranks are standards that often confer rewards on people and things of higher rank, and sometimes penalties on those of lower rank. For example, grade A butter will ① likely command a higher price than grade B, and persons with more formal education will be likely to command greater incomes than those with less. Nor ② are the rewards associated with ranks confined to the monetary sphere. Those persons with higher ranks may be ③ given the opportunity to make more important decisions (such as higher-ranking persons in the military, government, or corporations), while things of higher rank may be esteemed as art objects (e.g., excellence in industrial design). Of note, ranks are frequently contested. Some ranks are widely accepted and used, while ④ others are subject to continued heated debate. But even the most well-established rankings can be challenged by those ⑤ who standpoint differs from the commonly accepted one.

4. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?

In technological design, an aspiration towards seamlessness aims to make the technological experience for humans blend seamlessly into our everyday lives. Essentially, this aspiration aims towards experiences where people are no longer (a) ① aware of the technology, the interface or the differences between human-technology and human-human interaction. Considering the metaphor of seams in clothing, we can say that we aspire to seamless aesthetics by stitching the seams closely, pressing them flat and making sure they are (b) ② hidden on the inside so that we wear clothing rather than pieces of fabric. When designers and engineers talk about technological seamlessness, they are often referring to ease of use and convenience. For example, in interface design, an aspiration towards seamlessness (c) ③ ensures the experience for the user flows and is not stressful or irritating. Most of us would have had experiences of (d) ④ poor interface designs or apps in workplaces that make things more complicated and irritating, and have longed for more seamless interfaces. Technological seamlessness can also include less visible screens in new technologies, or virtual reality technologies with a seamless technological design. The aim is to immerse the user experience such that the visual interaction might be described as inside the screen rather than a body interacting with a digital console or object as separate entities. Similarly, seamlessness in humanoid robotic design aims to make humanoids (e) ⑤ distinguishable from a human body.

5. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오. (3점)

Everyone who drives, walks, or swipes a transit card in a city views herself as a transportation expert from the moment she walks out the front door. And how she views the street . That's why we find so many well-intentioned and civic-minded citizens arguing past one another. At neighborhood meetings in school auditoriums, and in back rooms at libraries and churches, local residents across the nation gather for often-contentious discussions about transportation proposals that would change a city's streets. And like all politics, all transportation is local and intensely personal. A transit project that could speed travel for tens of thousands of people can be stopped by objections to the loss of a few parking spaces or by the simple fear that the project won't work. It's not a challenge of the data or the traffic engineering or the planning. Public debates about streets are typically rooted in emotional assumptions about how a change will affect a person's commute, ability to park, belief about what is safe and what isn't, or the bottom line of a local business.

- ① relies heavily on how others see her city's streets
- ② updates itself with each new public transit policy
- ③ arises independently of the streets she travels on
- ④ tracks pretty closely with how she gets around
- ⑤ ties firmly in with how her city operates

6. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오. (3점)

Although empathy is widely praised by scholars and public figures, not everyone is an empathy booster. Critics of empathy argue that empathy will not save us from interpersonal and intergroup conflict. In fact, they argue, empathy makes such conflicts worse. These critics maintain that empathy can be exhausting and lead to burnout, insensitivity to suffering, or worse. They argue that we tend to empathize strongly with our in-group and resist empathizing with out-groups, and even enjoy the suffering of out-groups in competitive or threatening contexts. Thus, the prescription for more empathy _____. Empathy, they argue, can further entrench conflict and force us into an us vs. them mentality. Finally, even when we try to empathize with others who are dissimilar from us or in unfamiliar contexts, sometimes we are unable to accurately empathize with their experiences, causing further misunderstandings and frustration. Critics of empathy argue that we should give up on empathy and employ other tools in pursuit of social harmony, e.g., rational compassion or moral emotions like fear, anger, and shame.

- ① underestimates the invisible conflicts possible within a group
- ② is triggered by the need for solutions to emotional conflicts
- ③ is often counterproductive in cases of conflict
- ④ functions as a facilitator in the resolution of social disharmony
- ⑤ raises questions about negative attitudes toward social disharmony

정답 및 해설

1. [정답] ④

[해설]

이 글은 주의를 좁게 집중하면 스트레스에 집착하게 되고, 주의를 넓히면 스트레스에서 벗어날 수 있다고 설명합니다. 'nonstick frying pan'은 계란(스트레스 유발 사건)을 부치더라도 팬(자신)에 달라붙지 않는 상태를 비유합니다. 이는 스트레스 받는 경험의 특정 부분에 얽매이지 않고, 더 넓은 관점(a broader perspective), 즉 'the bigger picture'를 통해 스트레스 요소를 넘어 경험 전체를 바라보는 능력을 의미합니다.

2. [정답] ②

[해설]

이 글은 'culturtainment(문화+엔터테인먼트)'의 상업화가 가져오는 경제적 이익(Cash)과, 그로 인해 본래의 메시지를 잃고 획일화될 수 있는 위험(Soul)이라는 양면성을 다룬다. 즉, 문화가 오락과 결합될 때 발생하는 상업적 이익과 문화적 본질 보존 사이의 딜레마를 설명하고 있으므로, 'Cash or Soul?(현금인가, 영혼인가?)'이라는 제목이 이 갈등을 가장 잘 표현한다.

3. [정답] ⑤

[해설]

⑤번은 뒤따르는 명사 standpoint를 수식하면서 동시에 선행사 those와 연결해주는 소유격 관계대명사가 필요한 자리이다. '그들의 관점이 다른 사람들'이라는 의미가 되어야 하므로 주격 관계대명사 who가 아닌 소유격 관계대명사 whose가 와야 한다. ① likely는 동사 command를 수식하는 부사이다. ② are는 부정어 Not가 문두에 와서 주어(the rewards)와 동사(are)가 도치된 구조이다. ③ given은 수동태(may be given) 동사구의 일부이다. ④ others는 불특정한 다른 일부(ranks)를 가리키는 대명사이다.

4. [정답] ⑤

[해설]

글의 맥락상 'seamlessness'는 경계를 허물고 자연스럽게 융화되는 것을 의미한다. 인간형 로봇 디자인에서의 'seamlessness'는 로봇을 인간과 구별하기 어렵게, 즉 인간의 몸과 '구별할 수 없게(indistinguishable)' 만드는 것을 목표로 해야 한다. 따라서 인간의 몸과 '구별할 수 있는(distinguishable)'으로 만드는 것을 목표로 한다는 (e)는 문맥상 반대되는 의미이므로 적절하지 않다.

5. [정답] ④

[해설]

사람들은 각자 자신이 운전하고, 걷고, 대중교통을 이용하는 경험을 바탕으로 스스로를 교통 전문가로 여깁니다. 교통에 대한 논쟁은 데이터나 공학적 사실보다는, 변화가 자신의 통근, 주차, 안전 등에 미칠 영향에 대한 '지극히 개인적인(intensely personal)' 감정적 가정에 기반한다고 설명합니다. 이는 개인이 거리를 보는 방식이 '자신이 (도시에서) 어떻게 돌아다니는지(how she gets around)'와 매우 밀접하게 관련되어 있음을 의미합니다.

6. [정답] ③

[해설]

이 글은 공감(empathy)이 갈등을 해결하기보다 오히려 악화시킬 수 있다는 비판적 견해를 소개한다. 공감은 내집단에 편향되고, 갈등을 심화시키며, '우리 대 그들'이라는 사고방식을 강요할 수 있다고 주장한다. 따라서 '더 많은 공감을 하라'는 처방(prescription for more empathy)은 갈등 상황에서 종종 '역효과를 낳는다(is often counterproductive)'는 결론에 이를 수 있다.
