

2027학년도 수능 대비 모의평가

1. 밑줄 친 부분이 다음 글에서 의미하는 바로 가장 적절한 것은?

You may feel there is something scary about an algorithm deciding what you might like. Could it mean that, if computers conclude you won't like something, you will never get the chance to see it? Personally, I really enjoy being directed toward new music that I might not have found by myself. I can quickly get stuck in a rut where I put on the same songs over and over. That's why I've always enjoyed the radio. But the algorithms that are now pushing and pulling me through the music library are perfectly suited to finding gems that I'll like. My worry originally about such algorithms was that they might drive everyone into certain parts of the library, leaving others lacking listeners. Would they cause a convergence of tastes? But thanks to the nonlinear and chaotic mathematics usually behind them, this doesn't happen. A small divergence in my likes compared to yours can send us off into different far corners of the library.

- ① lead us to music selected to suit our respective tastes
- ② enable us to build connections with other listeners
- ③ encourage us to request frequent updates for algorithms
- ④ motivate us to search for talented but unknown musicians
- ⑤ make us ignore our preferences for particular music genres

2. 다음 글의 제목으로 가장 적절한 것은?

Before the web, newspaper archives were largely the musty domain of professional researchers and journalism students. Journalism was, by definition, current. The general accessibility of archives has greatly extended the shelf life of journalism, with older stories now regularly cited to provide context for more current ones. With regard to how meaning is made of complex issues encountered in the news, this departure can be understood as a readiness by online news consumers to engage with the underlying issues and contexts of the news that was not apparent in, or even possible for, print consumers. One of the emergent qualities of online news, determined in part by the depth of readily accessible online archives, seems to be the possibility of understanding news stories as the manifest outcomes of larger economic, social and cultural issues rather than short-lived and unconnected media spectacles.

- ① Web-based Journalism: Lasting Longer and Contextually Wider
- ② With the Latest Content, Online News Beats Daily Newspapers!
- ③ How Online Media Journalists Reveal Hidden Stories Behind News
- ④ Let's Begin a Journey to the Past with Printed Newspapers!
- ⑤ Present and Future of Journalism in the Web World

3. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?

Autonomy does not mean having no constraints, or being totally in control and independent of other people. That is rarely possible and hardly ever desirable. Being ① rigidly self-sufficient, or exerting unlimited control, exacts a heavy price on yourself and the people around you. Autonomy means having sufficient control and choice over the things that are important to you, and using whatever power you ② do have to change things in a positive way. When you take on a challenge, by definition you submit yourself to the demands of that responsibility. But, paradoxically, once you do ③ that you experience a surge of inner freedom. That's because the act of making the choice, of going for something, releases you to direct all your energy towards the targets and ④ frees you from ambivalence and anxiety. With the die cast, you feel more in charge of your own destiny, better able to resist pressures from others, and more likely to judge ⑤ you by your own personal standards.

*ambivalence: 양면 가치

4. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?

To the extent that an agent relies on the prior knowledge of its designer rather than on its own percepts, we say that the agent lacks autonomy. A rational agent should be autonomous it should learn what it can to (A) compensate / prepare for partial or incorrect prior knowledge. For example, a vacuum-cleaning agent that learns to foresee where and when additional dirt will appear will do better than one that does not. As a practical matter, one seldom requires complete autonomy from the start: when the agent has had little or no experience, it would have to act (B) purposefully / randomly unless the designer gave some assistance. So, just as evolution provides animals with enough built-in reflexes to survive long enough to learn for themselves, it would be reasonable to provide an artificial intelligent agent with some initial knowledge as well as an ability to learn. After sufficient experience of its environment, the behavior of a rational agent can become effectively (C) independent / protective of its prior knowledge. Hence, the incorporation of learning allows one to design a single rational agent that will succeed in a vast variety of environments.

- | | |
|--|--|
| ① compensate randomly protective | ② compensate purposefully protective |
| ③ prepare randomly protective | ④ compensate randomly independent |
| ⑤ prepare purposefully independent | |

5. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오. (3점)

Writers often give us the impression that they have described the faces of their characters, when in fact they have simply given you an outline to fill in. Of Esch, the most important character in Hermann Broch's masterpiece *The Sleepwalkers*, we learn only that he has big teeth. Even so, we don't feel as if his face is a dentate blankness. Most often, we mistake being told what effect someone's appearance has for an account of that appearance. The poet Mallarmé's advice *Peindre non la chose, mais l'effet qu'elle produit* ('Paint not the thing itself but the effect it produces') sounds like a self-denying ordinance. Actually it is a rather clever way out of an intractable problem. When, in one of his novels, Evelyn Waugh says of a new character, that 'he had just the kind of appearance one would expect a young man of his type to have' and nothing else, you still feel as if you _____.

- ① have been told exactly what he looks like
- ② have become a member of his social group
- ③ already know what will happen to him in the story
- ④ have been given precise details about his behavior
- ⑤ recognize the core characteristics of his personality

6. 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오.

One of the factors determining the use of technologies of communication will be the kinds of investments made in equipment and personnel; who makes them, and what they expect in return. There is no guarantee that the investment will necessarily be in forms of communication that . Because the ownership of investment funds tends to be in the hands of commercial organisations, the modernisation of communications infrastructure only takes place on the basis of potential profitability. Take, for example, the installation of fibre-optic communications cable across the African continent. A number of African nations are involved in the development but its operational structures will be oriented to those who can pay for access. Many states that might wish to use it for education and information may not only find it too expensive but also simply unavailable to them. There can be no doubt that the development has been led by investment opportunity rather than community demand.

- ① require minimal cost and effort to maintain
- ② are most appropriate for the majority of people
- ③ are in line with current standards and global norms
- ④ employ some of the most advanced technologies
- ⑤ promote the commercial interests of companies

정답 및 해설

1. [정답] ①

[해설]

음악 추천 알고리즘이 모든 사람의 취향을 비슷하게 만들 것이라는 우려와 달리, 'A small divergence in my likes compared to yours(나와 당신의 취향의 작은 차이)'가 'send us off into different far corners of the library(우리를 도서관의 서로 다른 먼 구석으로 보낸다)'고 말한다. 여기서 'library'는 음악 라이브러리를 의미하며, 'different far corners'는 각자의 취향에 맞는 다양한 음악을 의미한다. 따라서 밑줄 친 부분은 알고리즘이 각자의 취향에 맞는 음악으로 우리를 이끈다는 것을 의미한다.

2. [정답] ①

[해설]

웹 이전의 저널리즘과 웹 기반 저널리즘을 비교하며, 웹 덕분에 기사의 '수명(shelf life)'이 길어지고 (Lasting Longer), 과거 기사를 통해 현재 사건의 '맥락(context)'을 더 깊이 이해할 수 있게 되었다 (Contextually Wider)는 점을 핵심 내용으로 다루고 있다.

3. [정답] ⑤

[해설]

⑤번은 동사 judge의 주체를 묻고 있다. '당신 자신의 개인적인 기준으로 당신 자신을 판단할 가능성이 더 높다'는 의미가 되어야 하므로, 주어 you와 목적어가 동일하다. 따라서 목적격 대명사 you가 아니라 재귀대명사 yourself를 써야 한다. ① rigidly는 형용사 self-sufficient를 수식하는 부사이다. ② do는 동사 have를 강조하는 조동사이다. ③ that은 앞 문장의 내용(you submit yourself ~)을 받는 지시 대명사이다. ④ frees는 주어 the act에 연결되는 동사로 releases와 병렬 구조를 이룬다.

4. [정답] ④

[해설]

(A) 이성적 행위자는 불완전하거나 부정확한 사전 지식을 '보완하기(compensate for)' 위해 학습해야 합니다. (B) 경험이 거의 없다면, 설계자의 도움이 없는 한 '무작위로(randomly)' 행동할 수밖에 없습니다. (C) 충분한 경험 후에는, 사전 지식으로부터 '독립적인(independent of)' 행동을 할 수 있게 됩니다.

5. [정답] ①

[해설]

글은 작가들이 인물의 외모를 직접 묘사하는 대신, 그 외모가 주는 '효과'를 전달하여 독자가 나머지를 채우게 한다고 주장한다. Evelyn Waugh의 소설에서처럼 구체적인 묘사가 전혀 없음에도 불구하고, 독자는 역설적으로 마치 '그가 어떻게 생겼는지 정확히 들은 것 같은' 느낌을 받는다는 것이다. 이는 작가가 제공한 최소한의 정보(효과)를 바탕으로 독자가 스스로 이미지를 완성하기 때문에 발생하는 현상이다.

6. [정답] ②

[해설]

The passage argues that commercial investments in communication technology prioritize 'potential profitability' over 'community demand.' This leads to infrastructure that serves only those who can pay, neglecting the needs of the broader population, such as for education. Therefore, there is no guarantee that investments will be in forms of communication that 'are most appropriate for the majority of people.'
