

2027학년도 수능 대비 모의평가

1. 다음 글의 목적으로 가장 적절한 것은?

To whom it may concern, My name is Daniel. Since I joined your youth sports program several years ago, I have really enjoyed swimming. Thanks to your program, I have become a good swimmer. Now I want to go one step further. I like helping people and hope to get a job as a lifeguard later. So I tried to sign up for your lifeguard training course this summer. But the course was so popular that the registration closed almost as soon as it opened. I couldn't register and was really disappointed. I heard some of my friends couldn't, either. I'm kindly asking you to open an additional course. I appreciate your consideration. Sincerely, Daniel Smith

- ④ 수영 강사 일자리가 있는지 문의하려고
- ⑤ 구조원 양성 과정의 등록 방법을 안내하려고

2. 다음 글의 주제로 가장 적절한 것은?

There are pressures within the museum that cause it to emphasize what happens in the galleries over the activities that take place in its unseen zones. In an era when museums are forced to increase their earnings, they often focus their energies on modernising their galleries or mounting temporary exhibitions to bring more and more audiences through the door. In other words, as museums struggle to survive in a competitive economy, their budgets often prioritise those parts of themselves that are consumable: infotainment in the galleries, goods and services in the cafes and the shops. The unlit, unglamorous storerooms, if they are ever discussed, are at best presented as service areas that process objects for the exhibition halls. And at worst, as museums pour more and more resources into their publicly visible faces, the spaces of storage may even suffer, their modernisation being kept on hold or being given less and less space to house the expanding collections and serve their complex conservation needs.

- ① importance of prioritising museums' exhibition spaces
- ② benefits of diverse activities in museums for audiences
- ③ necessity of expanding storerooms for displaying objects
- ④ consequences of profit-oriented management of museums
- ⑤ ways to increase museums' commitment to the public good

3. 다음 글의 제목으로 가장 적절한 것은? (3점)

Radioactive waste disposal has become one of the key environmental battlegrounds over which the future of nuclear power has been fought. Environmentalists argue that no system of waste disposal can be absolutely safe, either now or in the future. Governments and the nuclear industry have tried to find acceptable solutions. But in countries where popular opinion is taken into consideration, no mutually acceptable solution has been found. As a result, most spent fuel has been stored in the nuclear power plants where it was produced. This is now causing its own problems as storage ponds designed to store a few years' waste become filled or overflowing. One avenue that has been explored is the reprocessing of spent fuel to remove the active ingredients. Some of the recovered material can be recycled as fuel. The remainder must be stored safely until it has become inactive. But reprocessing has proved expensive and can exacerbate the problem of disposal rather than assisting it. As a result, it too appears publicly unacceptable.

4. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?

Think of yourself. When you decide to get up and get a drink of water, for example, you don't consciously organize or consider the host of steps involved. Imagine if we ①had to consider every single muscle that needed to be contracted or relaxed just to stand up and walk. It would be tiresome and very slow as patients recovering from a brain injury affecting the motor system ②knows. The autopilot parts of our brain do it for us automatically, ③freeing up our conscious mind for more important jobs. It is the older parts of our brain ④that support these automatic processes that allow us to move, hear, see, and use many of our social skills. More recently evolved abilities like talking, reading, and writing are far less automated. So, most of the time, ⑤what you are perceiving, feeling, or thinking is based on a very crude and fast analysis that happens completely without your awareness.

5. 다음 글의 내용을 한 문장으로 요약하고자 한다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은?

After the United Nations environmental conference in Rio de Janeiro in 1992 made the term "sustainability" widely known around the world, the word became a popular buzzword by those who wanted to be seen as pro-environmental but who did not really intend to change their behavior. It became a public relations term, an attempt to be seen as abreast with the latest thinking of what we must do to save our planet from widespread harm. But then, in a decade or so, some governments, industries, educational institutions, and organizations started to use the term in a serious manner. In the United States a number of large corporations appointed a vice president for sustainability. Not only were these officials interested in how their companies could profit by producing "green" products, but they were often given the task of making the company more efficient by reducing wastes and pollution and by reducing its carbon emissions.

While the term "sustainability," in the initial phase, was popular among those who (A) to be eco-conscious, it later came to be used by those who would (B) their pro-environmental thoughts.

- | (A) | (B) | (A) | (B) |
|-------------|-----------------|-------------|-----------------|
| ① pretended | actualize | ② pretended | disregard |
| ③ refused | realize | ④ refused | idealize |
| ⑤ attempted | mask | | |

정답 및 해설

1. [정답] ①

[해설]

글의 후반부에 명시적으로 드러난 'I'm kindly asking you to open an additional course.'라는 문장을 통해 글의 목적이 추가 강좌 개설 요청임을 알 수 있습니다.

2. [정답] ④

[해설]

박물관이 수익 증대 압박 속에서 갤러리나 상점 등 눈에 보이는 '소비 가능한(consumable)' 부분에 예산을 우선 배정하면서, 수장고와 같은 보이지 않는 핵심 영역이 소홀해지거나 악화되는 문제점을 지적하고 있습니다. 이는 '박물관의 수익 지향적 경영이 낳는 결과'를 주제로 다루는 글입니다.

3. [정답] ④

[해설]

지문은 방사성 폐기물 처리 문제가 원자력 발전의 미래를 결정하는 핵심 쟁점임을 밝히고 있다. 안전성 문제로 사회적 합의에 이른 해결책이 없으며, 임시방편인 발전소 내 저장 방식은 한계에 도달했고, 재처리 방식은 비싸고 문제를 악화시켜 대중적으로 수용되지 못하는 상황을 설명한다. 이는 핵폐기물 처리가 아직 해결되지 않은 딜레마임을 명확히 보여준다.

4. [정답] ②

[해설]

②번 'knows'의 주어는 'patients recovering from a brain injury affecting the motor system'에서 복수 명사인 'patients'이다. 따라서 동사는 주어의 수에 맞춰 복수형인 'know'가 되어야 한다. 단수 동사 'knows'는 어법상 틀리다.

5. [정답] ①

[해설]

지문에 따르면, '지속가능성'이라는 용어는 초기에는 '실제로 행동을 바꿀 의도는 없으면서 친환경적인 척(pro-environmental but who did not really intend to change their behavior)' 하려는 사람들에게 인기가 있었다. 따라서 (A)에는 'pretended(~인 척했다)'가 적절하다. 이후에는 기업들이 실제로 '폐기물과 오염을 줄이는(reducing wastes and pollution)' 등 친환경적인 생각을 '실현했다'. 따라서 (B)에는 'actualize(실현하다)'가 적절하다.
