

2027학년도 수능 대비 모의평가

1. 다음 글의 목적으로 가장 적절한 것은? (3점)

Dear Mr. Reese, A few days ago, I submitted my application and recipe for the 2nd Annual DC Metro Cooking Contest. However, I would like to change my recipe if it is possible. I have checked the website again, but I could only find information about the contest date, time, and prizes. I couldn't see any information about changing recipes. I have just created a great new recipe, and I believe people will love this more than the one I have already submitted. Please let me know if I can change my submitted recipe. I look forward to your response. Best Regards, Sophia Walker

2. 다음 글의 주제로 가장 적절한 것은?

Managers of natural resources typically face market incentives that provide financial rewards for exploitation. For example, owners of forest lands have a market incentive to cut down trees rather than manage the forest for carbon capture, wildlife habitat, flood protection, and other ecosystem services. These services provide the owner with no financial benefits, and thus are unlikely to influence management decisions. But the economic benefits provided by these services, based on their non-market values, may exceed the economic value of the timber. For example, a United Nations initiative has estimated that the economic benefits of ecosystem services provided by tropical forests, including climate regulation, water purification, and erosion prevention, are over three times greater per hectare than the market benefits. Thus cutting down the trees is economically inefficient, and markets are not sending the correct "signal" to favor ecosystem services over extractive uses.

- ① necessity of calculating the market values of ecosystem services
- ② significance of weighing forest resources' non-market values
- ③ impact of using forest resources to maximize financial benefits
- ④ merits of balancing forests' market and non-market values
- ⑤ ways of increasing the efficiency of managing natural resources

3. 다음 글의 제목으로 가장 적절한 것은?

In technological design, an aspiration towards seamlessness aims to make the technological experience for humans blend seamlessly into our everyday lives. Essentially, this aspiration aims towards experiences where people are no longer (a) aware of the technology, the interface or the differences between human-technology and human-human interaction. Considering the metaphor of seams in clothing, we can say that we aspire to seamless aesthetics by stitching the seams closely, pressing them flat and making sure they are (b) hidden on the inside so that we wear clothing rather than pieces of fabric. When designers and engineers talk about technological seamlessness, they are often referring to ease of use and convenience. For example, in interface design, an aspiration towards seamlessness (c) ensures the experience for the user flows and is not stressful or irritating. Most of us would have had experiences of (d) poor interface designs or apps in workplaces that make things more complicated and irritating, and have longed for more seamless interfaces. Technological seamlessness can also include less visible screens in new technologies, or virtual reality technologies with a seamless technological design. The aim is to immerse the user experience such that the visual interaction might be described as inside the screen rather than a body interacting with a digital console or object as separate entities. Similarly, seamlessness in humanoid robotic design aims to make humanoids (e) distinguishable from a human body.

4. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?

Not all organisms are able to find sufficient food to survive, so starvation is a kind of disvalue often found in nature. It also is part of the process of selection ①by which biological evolution functions. Starvation helps filter out those less fit to survive, those less resourceful in finding food for ②themselves and their young. In some circumstances, it may pave the way for genetic variants ③to take hold in the population of a species and eventually allow the emergence of a new species in place of the old one. Thus starvation is a disvalue that can help make ④possible the good of greater diversity. Starvation can be of practical or instrumental value, even as it is an intrinsic disvalue. ⑤What some organisms must starve in nature is deeply regrettable and sad. The statement remains implacably true, even though starvation also may sometimes subserve ends that are good.

*implacably: 확고히 **subserve: 공헌하다

5. 다음 글의 내용을 한 문장으로 요약하고자 한다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은?

A cross-cultural perspective on the self and others is that the conception of political power as a coercive force is a Western cultural obsession. It is a culturally specific idea, not a universal one. It is important to avoid this ethnocentrism. For many native peoples of Amazonia, the idea of a political leader as a coercive commander is abhorrent. The political system is based on an individual's autonomy and freedom. The power of a leader is to persuade, not to command. The idea that an individual would have coercive power over another is anathema. The Western notion of political power as 'domination' is a cultural bias, a 'political personhood' constructed from our own cultural obsessions.

It is ____ (A) ____ to understand political power in other cultures through our own notion of it because ideas of political power are not ____ (B) ____ across cultures.

- | (A) | (B) | (A) | (B) |
|----------------|-------------------|--------------|-------------------|
| ① rational | flexible | ② misleading | uniform |
| ③ effective | varied | ④ objective | commonplace |
| ⑤ unreasonable | appropriate | | |

정답 및 해설

1. [정답] ③

[해설]

글의 마지막 부분 'Please let me know if I can change my submitted recipe.'(제출된 요리법을 변경할 수 있는지 알려주세요.)에서 글쓴이의 의도가 명확히 드러납니다. 이는 요리법 변경 가능 여부를 '문의'하는 것이므로 정답은 ③번입니다.

2. [정답] ②

[해설]

이 글은 산림 자원의 시장 가치(목재 등)와 비시장 가치(생태계 서비스)를 대조합니다. 시장은 벌목과 같은 이용(exploitation)에 재정적 보상을 제공하지만, 탄소 포집, 수질 정화 등 생태계 서비스가 제공하는 비시장적 가치의 경제적 이익이 실제로는 훨씬 클 수 있음을 UN 연구 결과를 예로 들어 설명합니다. 결론적으로 시장이 올바른 신호를 보내지 못하고 있음을 지적하며, 산림 자원의 비시장적 가치를 중요하게 고려해야 할 필요성을 강조하고 있습니다.

3. [정답] ①

[해설]

이 글의 핵심어는 'seamlessness(이음매 없음)'로, 기술이 사용자의 일상에 완벽하게 녹아들어 기술 자체를 인식하지 못하게 만드는 디자인 목표를 설명한다. 이는 곧 기술이 더 이상 기술처럼 느껴지지 않는 상태를 지향하는 것이므로, '융화되기: 기술이 기술처럼 느껴지지 않을 때(Blending In: When Tech Stops Feeling Like Tech)'가 글 전체의 주제를 가장 잘 나타내는 제목이다.

4. [정답] ⑤

[해설]

⑤번 문장에서 'is deeply regrettable and sad'의 주어 역할을 하는 명사절이 필요하다. 'some organisms must starve in nature'는 완전한 문장이므로, 이 문장을 이끌어 명사절로 만드는 접속사 'That'이 와야 한다. 'What'은 선행사를 포함하는 관계대명사로 뒤에 불완전한 절이 오거나, 의문사로 쓰이는데 여기서는 문맥상 어색하다. 따라서 'What'을 'That'으로 고쳐야 한다.

5. [정답] ②

[해설]

본문은 서구 문화의 정치권력 개념(지배, 강제성)과 아마존 원주민의 정치권력 개념(개인의 자율성)을 대조하며, 정치권력에 대한 관념이 문화마다 다를 것을 보여줍니다. 따라서 우리 자신의 관념을 통해 다른 문화의 정치권력을 이해하려는 시도는 '오해를 불러일으킬 수 있으며(misleading)', 정치권력에 대한 생각은 문화 전반에 걸쳐 '획일적이지(uniform)' 않다는 내용으로 요약할 수 있습니다.
